

10th February 2025

Powerhouse Energy Group Plc

("Powerhouse", "PHE" or the "Company")

Notice of Capital Markets Day

Powerhouse (AIM:PHE), a company pioneering integrated technology that converts non-recyclable waste into low carbon energy together with a revenue generating engineering consulting division (Engsolve), is pleased to announce that it will hold a Capital Markets Event on Tuesday 4th March 2025 at the Company's site in Bridgend.

The event will provide a demonstration of the FTU (Feedstock Testing Unit) and will include a tour of the Bridgend facility. A Presentation will be given on Powerhouse's technology, capabilities and plans for 2025.

The Company invites institutional investors, analysts and retail shareholders to attend. Please note that due to Health & Safety requirements, attendee numbers will be limited, and registration is essential to confirm attendance on the day. To register your interest in attending, please email powerhouse@tavistock.co.uk Further information regarding timing and logistics will be sent out to those who register in due course.

Please note that presentations discussed on the day will be made available on the Company's website shortly after the event for those you cannot attend.

About Powerhouse Energy Group Plc

Powerhouse has developed a process technology which can utilise waste plastic, end-of-life-tyres, and other waste streams to convert them efficiently and economically into syngas from which valuable products such as chemical precursors, hydrogen, electricity, heat and other industrial products may be derived. PHE's process produces low levels of safe residues and requires a small operating footprint, making it suitable for deployment at enterprise and community level.

PHE also incorporates Engsolve Ltd, which is a revenue generating business offering Engineering Services across all sectors, with speciality services in the development of new technologies and clean energy.
