

**KOSMOS ENERGY ANNOUNCES FIRST LNG AT THE GREATER TORTUE AHMEYIM
PROJECT IN MAURITANIA AND SENEGAL**

DALLAS, Texas, February 10, 2025 - [Kosmos Energy](#) (NYSE/LSE: KOS) today announces that first liquified natural gas (LNG) production has been achieved at the bp-operated Greater Tortue Ahmeyim (GTA) LNG project, offshore Mauritania & Senegal.

On December 31, 2024, gas from the first phase of GTA started to flow from wells to the floating production storage and offloading (FPSO) vessel as part of the commissioning process. At the FPSO, gas is being processed to remove any condensate, water and impurities ahead of delivery to the floating LNG vessel for liquefaction.

Gas has now been delivered to the floating LNG vessel and liquefaction has commenced. The liquefaction of gas into LNG is when Kosmos starts to recognize gas entitlement production from the project in its quarterly statements. In addition, bp has given notice to the offtaker (bp gas marketing ltd.) for an LNG carrier to arrive later this quarter to export the first LNG cargo. Lifting of the first LNG cargo is when Kosmos starts to recognize revenue and generate cash flow from the project.

Commenting on first LNG production at GTA, Chairman and Chief Executive Officer Andrew G. Inglis said: "First LNG is another major milestone for Kosmos, the GTA partnership and the governments of Mauritania and Senegal. We are looking forward to the accelerated ramp-up of LNG production and the first LNG cargo lifting during the first quarter."
