About Oncimmune

Oncimmune is a precision medicine company, specialising in analysing immune interactions through the autoantibody profile. Taking a platform approach to generating insights, Oncimmune is partnering with global pharmaceutical and biotech companies, as well as contract research organisations (CROs) to discover novel biomarkers for the development of more targeted and effective therapies across many immune-mediated diseases. Our mission at Oncimmune is to enable precision medicine. We help our partners to discover novel biomarkers, drug targets and predict treatment efficacy through the application of our platform. We are able to do this by deploying our world class scientific team and our cutting-edge technology platform, built on years of experience in the field. Our aim is to make this an essential tool in drug discovery and development.

Oncimmune is headquartered in the UK, with its discovery and development facility based in Dortmund, Germany and a business development team based in the US and Europe.
