**Mutual of Enumclaw Insurance to Expand LeakBot Program**

Ondo Insurtech (LSE: ONDO), a leading company in claims prevention technology for home insurers, is pleased to confirm that Mutual of Enumclaw Insurance is expanding their LeakBot program to policyholders in Eastern Washington and Oregon beginning in Q1 2025. The expansion follows a successful one-year pilot project that delighted Mutual of Enumclaw policyholders and provided a compelling ROI.

**Craig Foster, Ondo CEO**, says: "Mutual of Enumclaw has been a great partner. We look forward to continuing to provide compelling results as we transition from a pilot project to a programmatic roll out of the LeakBot solution to as many Mutual of Enumclaw policyholders as possible."

**Jeff Obermeyer, Mutual of Enumclaw, Director of Strategic Initiatives**, says: "LeakBot has been a boon for our Mutual of Enumclaw members and agents. Easy to install and monitor, LeakBot allows our members to quickly identify and repair leaks before they cause damage, and if the homeowner can't find the source, they can have a LeakBot plumber come out to their home and do a full inspection without needing to file a claim. And I know this from first-hand experience - the LeakBot installed in my own home alerted me to a leaking angle stop and saved me from a ruined bathroom floor, and possibly worse. It's great peace of mind."
