**Notes to Editors:**

**About RM**

RM was founded in 1973, with a mission to improve the educational outcomes of learners worldwide. More than fifty years on, we are a trusted global EdTech, digital learning and assessment solution provider, transforming learners, educators, and accreditors to be more productive, resilient, and sustainable. Our simple approach enables us to deliver best in class solutions to optimise accreditation outcome.

RM is focused on delivering a consistently high-quality digital experience, acting as a trusted consultative partner to provide solutions that deliver real impact for learners worldwide. Our three businesses include:

- Assessment – a global provider of assessment software, supporting exam awarding bodies, universities, and governments worldwide to digitise their assessment delivery.
- TTS (Teacher Technology Solution) – an established provider of education resources for early years, primary schools, and secondary schools across the UK and to ministries of education and independent institutions worldwide.
- Technology – a market-leading advisor and enabler of ICT software, technology and bespoke services to UK schools and colleges.
