Learning Technologies Group plc
("LTG", the "Group" or the "Company")
(AIM: LTG)

GP Strategies US Regulatory Update

Learning Technologies Group plc, a global market leader in digital learning and talent management, announces a regulatory update relating to its GP Strategies US government business.

As a US company that performs work for the US Government, GP Strategies requires certain approvals and is subject to restrictions intended to protect classified information. In July 2024, LTG was notified by GP Strategies of the invalidation ("temporary suspension") of the eligibility for GP to work on new classified contracts.

As previously announced, a new subsidiary, solely focused on all forms of federal US Government contracts, was established and has been operational for non-classified contracts since January 2025. It had applied for approval to work on classified contracts and the application process was expected to conclude within H1 2025. On 14 March 2025 the Company was notified that approval has been obtained for the new government subsidiary to work on new classified contracts.
