[Brown Advisory US Smaller Companies PLC](#)
17 March 2025

The Company announces the following unaudited estimates as at Valuation 14 March 2025:

Total Assets	including current year income and expenses	£167.018 million
Net asset value per Ordinary share	including current year income and expenses	1435.72p

The Company does not generate sufficient current year revenue receipts in excess of current year revenue expenses for the net asset value per Ordinary Share including current year income and expenses to exceed the net asset value per Ordinary share excluding current year income and expenses (the 'capital net asset value'). Accordingly, the above figures may also be used as a conservative estimate of the capital net asset value in each case.
