### Portfolio performance

Over the quarter to 31 December 2024, the aggregate unquoted portfolio valuation increased by £5.1 million, reflecting good levels of underlying revenue growth in portfolio companies, as well as an improvement in valuation multiples during the quarter.

### Fundraising

The Company announced a new share offer on 17 October 2024, alongside British Smaller Companies VCT2 plc, with the intention of raising up to £75 million, in aggregate, which included an over-allotment facility of £25 million, in aggregate. The offers closed to new Applications on 8 January 2025. Gross Applications of £75 million have been received, of which c.£46 million relate to the Company. The first allotment of £25 million (£15.2 million relating to the Company) took place on 30 January 2025; the second and final allotment will take place between 1 and 4 April 2025.

### Outlook

Despite increased geopolitical uncertainty and tariff threats from a change in government in the US, and subdued business confidence in the UK, there has been promising growth from portfolio companies in the quarter, driven by increases in underlying revenue and market multiples.

January's first allotment of funds arising from the 2024/25 fundraising, and the further allotment to follow in April, positions the Company well to continue to expand the portfolio, as well as support existing portfolio companies to continue their promising growth.

We thank shareholders for their continued support.
