**About Alpha Growth plc**

*Specialist in Longevity Assets*

Alpha Growth plc is a financial advisory business providing specialist consultancy, advisory, and supplementary services to institutional and qualified investors globally in the multi-billion dollar market of longevity assets and insurance linked asset and wealth management. Building on its well-established network, the Alpha Growth group has a unique position in the insurance and asset services and investment business, as a listed entity with global reach. The group's strategy is to expand its advisory and business services via acquisitions and joint ventures in the UK and the US to attain commercial scale and provide holistic solutions to alternative institutional investors who are in need of specialised skills and unique access to deploy their financial resource in longevity assets.

**Longevity Assets and Non-correlation**

As a longevity asset, it is non-correlated to the real estate, equity capital and commodity markets. Its value is a function of time because as time passes the value gets closer to the face value of the policy. Hence creating a steady increase in the net asset value of the investment. This makes it highly attractive to investors wishing to counteract volatility within an investment portfolio and add yield.

Note: The Company only advises on and manages Longevity Assets that originate in the USA where the structured and life settlement market is highly regulated.
