Launch of new 6-litre extinguisher with Trinity Fire & Security

LifeSafe (AIM:LIFS), a fire safety technology business with innovative fire extinguishing and prevention fluids and fire safety products, is pleased to announce that its new 6-litre Multi-Purpose Fluid extinguisher has been launched by Trinity Fire & Security Systems Ltd ("Trinity Fire & Security").

LifeSafe's partnership with Trinity Fire & Security commenced in May 2024 and has now culminated in the UK launch of the Company's new 6-litre Multi-Purpose Fluid extinguisher. This new extinguisher has full accreditations with BSI Kitemark, CE, Class A, B, F and NTA 8133. The NTA 8133 certification is a hugely significant achievement, being the industry recognised test for extinguishing lithium-ion battery fires which are increasing in frequency.

This marks the start of extending the LifeSafe range into the traditional cylinder market which is worth around 9 billion per year*.

Trinity Fire & Security

Founded in 1997, with annual revenue exceeding £60 million, Trinity Fire & Security operates across ten regional offices in the UK with over 2,000 customers. Trinity Fire & Security provides fire safety equipment and services to a variety of sectors, including customers such as the Ministry of Defence, NHS, IKEA, Mitie, CBRE, John Lewis, Selfridges and Heathrow Airport.

Trinity Fire & Security is part of the Premier Technical Services Group ("PTSG"), which employs 2,700 people across 48 sites throughout the UK, supporting over 20,000 customers and maintaining more than 200,000 properties.

The following link illustrates news coverage on the PTSG platform relating to the launch:

Dominic Berger, Chairman of LifeSafe, commented:

"Our launch with Trinity Fire & Security, a hugely prestigious and respected industry leader, marks a significant milestone for LifeSafe and will provide access to a global market valued at 9 billion annually."

Richard Castle-Smith, Head of Fire Suppression, Trinity Fire & Security, commented:

"In the development of the MPF Fire Extinguisher alongside LifeSafe Technologies, we conducted many tests, some of which were filmed. They make compelling viewing, demonstrating the ease and speed with which fires are controlled and extinguished - even with a small amount of the multi purpose fluid."

Notes to Editors

LifeSafe is a fire safety technology business that develops eco-friendly, novel and innovative fire extinguishing and prevention fluids and life-saving fire safety products. LifeSafe has developed a market disrupting range of eco-friendly fire safety protection products; a new patent-pending Thermal Runaway Fluid to combat lithium battery fires by permanently extinguishing and preventing re-ignition, and the StaySafe All-in-1, a handheld eco-friendly and fully recyclable extinguisher which is verified to extinguish ten different types of fire. LifeSafe is successfully creating new markets for the Group in fire safety through its innovative technologies, products, digital marketing and multi-channel sales; and is continuing to develop new fluid derivations for applications in various industrial market sectors.

LifeSafe was admitted to trading on AIM in July 2022 with the ticker LIFS.
