Molten Ventures plc
("Molten" or the "Company")

Delisting of Ordinary Shares from Euronext Dublin

On Monday, 14 April 2025, following careful review by the Board of Molten, the Company made an application to Euronext Dublin for the delisting of its ordinary shares of 1p each from the Official List of Euronext Dublin. Molten will continue to remain on the Official List of the Financial Conduct Authority trading on the Main Market of the London Stock Exchange.

Molten has benefited from a listing in Ireland for almost a decade. This however has become increasingly difficult to maintain with further divergence in regulatory requirements and expectations between the UK and the European Union following Brexit. It is anticipated the delisting will simplify compliance and regulatory obligations of Molten and reduce central costs.

Molten remains committed to the Irish market having launched an Irish focused fund with support from the Ireland Strategic Investment Fund (ISIF) in July 2023 (the "**Irish Fund**"). The Irish Fund invests into high growth technology companies whose core activities, management and expertise are based in the Republic of Ireland.

Any delisting of Molten's ordinary shares from the Irish market is subject to the approval of Euronext Dublin. It is anticipated that the delisting will take effect on or around Monday, 19 May 2025. Further announcements will be made in due course as appropriate.

About Molten Ventures

Molten Ventures is a leading venture capital firm in Europe, developing and investing in high growth technology companies.

It invests across four sectors: Enterprise & SaaS; AI, DeepTech & Hardware; Consumer Technology; and Digital Health with highly experienced partners constantly looking for new opportunities in each.

Listed on the London Stock Exchange, Molten Ventures provides a unique opportunity for public market investors to access these fast-growing tech businesses, without having to commit to long term investments with limited liquidity. Since its IPO in June 2016, Molten has deployed over £1bn capital into fast growing tech companies and has realised over £600m to 30 September 2024.
