

- **TotalEnergies signed an agreement with Energia Natural Dominicana (ENADOM) to supply 400,000 tons of LNG**
- **The contract has a 15-year duration and will start mid-2027**
- **This LNG will support the growing demand of electricity in the Dominican Republic**

PARIS--(BUSINESS WIRE)--

TotalEnergies (Paris:TTE) (LSE:TTE) (NYSE:TTE) has signed an agreement (HoA) with Energia Natural Dominicana (ENADOM), the Joint Venture between AES Dominicana and Energas in the Dominican Republic, for the delivery of 400,000 tons of LNG per year. Subject to the finalization of the SPAs, this agreement is set to start in mid-2027, for 15 years, with the price indexed to Henry Hub.

This agreement will enable ENADOM to supply natural gas to the 470 MW combined-cycle power plant, currently under construction, which will increase the country's electricity generation capacity. This project contributes to the energy transition of the Dominican Republic by reducing its dependence on coal and fuel oil through the use of a less carbon-intensive energy source, natural gas.

"We are pleased to have signed this agreement to answer, alongside AES and its partners, the energy needs of the Dominican Republic. This new contract underscores TotalEnergies' leadership in the LNG sector and our commitment to supporting the island's energy transition. It will be a natural outlet for our US LNG supply which will progressively increase," said **Gregory Joffroy, Senior Vice President LNG at TotalEnergies**.

"This agreement with TotalEnergies, is the result of the confidence placed in the Dominican Republic's energy sector and, specifically, in ENADOM and AES. This partnership, alongside ENADOM's has demonstrated investment capabilities in providing natural gas to the Dominican electricity market by ensuring a reliable, competitive, and environmentally responsible energy supply. ENADOM is proud to play a pivotal role in the expansion and strengthening of the nation's energy matrix in the Dominican Republic," said **Edwin De los Santos, Chief Executive Officer at ENADOM**.

#### **TotalEnergies, the world's third largest LNG player**

TotalEnergies is the world's third largest LNG player with a global portfolio of 40 Mt/y in 2024 thanks to its interests in liquefaction plants in all geographies. The Company benefits from an integrated position across the LNG value chain, including production, transportation, access to more than 20 Mt/y of regasification capacity in Europe, trading, and LNG bunkering. TotalEnergies' ambition is to increase the share of natural gas in its sales mix to close to 50% by 2030, to reduce carbon emissions and eliminate methane emissions associated with the gas value chain, and to work with local partners to promote the transition from coal to natural gas.

#### **About TotalEnergies**

TotalEnergies is a global integrated energy company that produces and markets energies: oil and biofuels, natural gas, biogas and low-carbon hydrogen, renewables and electricity. Our more than 100,000 employees are committed to provide as many people as possible with energy that is more reliable, more affordable and more sustainable. Active in about 120 countries, TotalEnergies places sustainability at the heart of its strategy, its projects and its operations.
