Octopus Renewables Infrastructure Trust plc
("ORIT" or the "Company")

Participation at the Investor Meet Company Spotlight Event

Octopus Renewables Infrastructure Trust PLC, the diversified renewables infrastructure company, today announces that David Bird, co-fund manager of ORIT, will be speaking at the Investor Meet Company Spotlight Event on Wednesday 30 April 2025 at 5:00pm BST.

These events allow companies to present their investment opportunity to existing and prospective shareholders. David will be discussing the current market backdrop and how ORIT fits into this, and will provide an overview of the Company's strategy, portfolio diversification and near-term priorities.

The event is free to attend and you can register here:

About Octopus Renewables Infrastructure Trust

Octopus Renewables Infrastructure Trust ("ORIT") is a London-listed, closed-ended investment company incorporated in England and Wales focused on providing investors with an attractive and sustainable level of income returns, with an element of capital growth, by investing in a diversified portfolio of renewable energy assets in Europe and Australia. As an impact fund, ORIT is helping accelerate the transition to net zero by investing in green energy, whilst also contributing to a broader set of UN Sustainable Development Goals through its impact initiatives. ORIT's investment manager is Octopus Energy Generation.

About Octopus Energy Generation

Octopus Energy Generation is driving the renewable energy agenda by building green power for the future. Its specialist renewable energy fund management team invests in renewable energy assets and broader projects helping the energy transition, across operational, construction and development stages. The team was set up in 2010 based on the belief that investors can play a vital role in accelerating the shift to a future powered by renewable energy. It has a 14-year track record with approximately £6.8 billion of assets under management (AUM) (as of 31 December 2024) across 18 countries and total 4.5GW. These renewable projects generate enough green energy to power 2.6 million homes every year, the equivalent of taking over 1.4 million petrol cars off the road. Octopus Energy Generation is the trading name of Octopus Renewables Limited.
