**Pantheon International Plc  
("PIP" or the "Company")**

**Performance Update at 31 March 2025**

**Share buybacks and Capital Allocation**

The Board of PIP recognises that the discount on PIP's shares continues to be wide and this has been further exacerbated by market volatility. As set out in recent Chair's Statements, step three of the Company's three-step corporate programme focuses on stimulating demand for PIP's shares through a number of initiatives. These initiatives form part of the Board's objective to narrow the discount and are underpinned by their priority of continuing to put shareholders first. The Board remains confident in the valuations reported by our underlying private equity managers and the quality of its underlying portfolio. In order to capture the compelling value offered by the discount, the Company announced on 28 March 2025 that the Board had allocated a further £35.0m to share buybacks, to be deployed by 31 May 2025, bringing the aggregate share buyback allocation for the financial year-to-date to £50.0m. The allocation to share buybacks in the financial year-to-date is significantly greater than the amount that was due to be allocated under the Company's Capital Allocation Policy ("CAP"), reflecting the Board's continuing commitment to delivering for shareholders.

As at 23 April 2025, of the £50.0m allocated to share buybacks in the current financial year, PIP has invested a total of £20.2m. The amount of cash committed to share buybacks during the fourth quarter of PIP's financial year (£35.0m) significantly exceeds the amount of cash deployed into new investments during the same period. As at 23 April 2025, the amount of cash deployed into new investments during the fourth quarter of PIP's financial year was £5.0m.
