Update Regarding Equitix:

Following on from our discussion regarding Equitix in our 2024 Annual Report and in our 14 October 2024 statement regarding press speculation, we note that the continued strong performance of Equitix, as well as other businesses on the platform, has enhanced the attractiveness of individual business transactions and other strategic opportunities as important ways of realising and hopefully accelerating the value inherent in TFG Asset Management. As such, the strategy for TFG Asset Management with respect to Equitix includes continuing to engage with strategic partners and financial advisors to explore options for executing on transactions or partnerships that would take advantage of this value enhancement. Although we do not expect to consummate a transaction with respect to Equitix in the immediate term, our strategy remains unchanged.
