

**Creo Medical Group plc**  
("Creo", the "Company" or the "Group")

**Notice of investor presentations**

Creo Medical Group plc (AIM: CREO), a medical device company focused on the emerging field of minimally invasive surgical endoscopy for pre-cancer and cancer patients, announces details of investor presentations to take place on Monday 19 May 2025 following the publication of the Company's preliminary results for the year ended 31 December 2024.

**Investor presentations**

Craig Gulliford, CEO, Richard Rees, CFO, Kevin Crofton Non-Executive Chairman and Charlie Campion, Chief Product Officer will present the Company's results in two separate events on Monday 19 May 2025 open to all investors.

The Company will provide commentary on the preliminary results, its commercial strategy to further grow Core Technology revenues and the transition to commercial profitability. The same presentation will be given at both events which are being held at different times to offer convenient options for those wishing to attend.

The first will be held online via the Investor Meet Company platform and the second will be held in-person in the City of London, full details below:

**1. Investor Meet Company online presentation**

Creo management will provide a live online presentation relating to the preliminary results via Investor Meet Company at 11:30 BST. The presentation is open to all existing and potential shareholders. Questions can be submitted pre-event via your Investor Meet Company dashboard up until 09:00 BST the day before the meeting or at any time during the live presentation.

Investors can sign up to Investor Meet Company for free and add to meet Creo Medical plc via:

<https://www.investormeetcompany.com/creo-medical-group-plc/register-investor>

**2. In-person investor presentation**

Creo management will provide an in-person presentation relating to the Company's preliminary results at 17:30 BST, which is open to all existing and potential shareholders. The meeting will be held at the offices of Deutsche Numis in the City of London and will be followed by refreshments. If you would like to attend and to receive further details, please contact Walbrook PR on 020 7933 8780 or email [creo@walbrookpr.com](mailto:creo@walbrookpr.com).

The results presentation will be made available on the Company's website on the day of results.

**About Creo Medical**

Creo is a medical device company focused on the development and commercialisation of minimally invasive electrosurgical devices, bringing advanced energy to endoscopy.

The Company's vision is to improve patient outcomes through the development and commercialisation of a suite of electrosurgical medical devices, each enabled by CROMA, powered by Kamaptive. The Group has developed the CROMA powered by Kamaptive full-spectrum adaptive technology to optimise surgical capability and patient outcomes. Kamaptive is a seamless, intuitive integration of multi-modal energy sources, optimised to dynamically adapt to patient tissue during procedures such as resection, dissection, coagulation, and ablation of tissue. Kamaptive technology provides clinicians with increased flexibility, precision and controlled surgical solutions. CROMA currently delivers bipolar radiofrequency ("RF") energy for precise localised cutting and focused high frequency microwave ("MW") energy for controlled coagulation and ablation via a single accessory port. This technology, combined with the Group's range of patented electrosurgical devices, is designed to provide clinicians with flexible, accurate and controlled clinical solutions. The Directors believe the Company's technology can impact the landscape of surgery and endoscopy by providing a safer, less invasive and more cost-efficient option for procedures.
