**accesso® Technology Group plc**

**("accesso" or the "Group")**

**accesso Acquires Technology of 1RISK**

**accesso Technology Group (AIM: ACSO)**, the premier technology solutions provider for attractions and venues worldwide, today announced the asset acquisition of 1RISK - a leader in cloud-based online liability waiver and incident risk management data technology for the leisure and recreation industries, with particular strength in the ski sector.

Founded in 2012, 1RISK developed technology to streamline the process of securing liability waivers for activities such as ticket and pass purchases, equipment rentals and lessons. Its SaaS-based solutions have also been expanded to include critical risk management tools, such as incident reporting and dispatch operations tracking, allowing operators to leverage data to reduce the frequency and severity of incidents over time.

The 1RISK liability waiver application, 1Waiver, is the market leading solution for ski resorts across North America. With more than 160 venues across North America - nearly half of which are also accesso clients - the technology enabled the completion of over 4 million waivers in 2024 alone. accesso has long supported integration with 1Waiver across its eCommerce and point-of-sale technologies. Moving forward, the 1RISK range of solutions will be included as part of **accesso's** broader suite of offerings and will be made available exclusively to venues utilising accesso products.

**Steve Brown, accesso CEO, said:**

*"As the leading provider of commerce solutions for the ski operators across North America, further enhancing the Accesso offering with 1RISK's proven technology extends our commitment to delivering innovative, comprehensive solutions to the leisure sector."*

**Charles Mickley, founder and CEO of 1RISK, said:**

*"As a long-standing partner of Accesso, we have seen first-hand their dedication to innovation and guest experience. We are excited to see the range of 1RISK technology become an integral part of Accesso's powerful ecosystem, helping operators support their overall approach to risk management."*

Following completion of the asset acquisition, staff members from 1RISK will join accesso and continue to support the development of leading-edge risk management technologies tailored for the needs of ski resorts, recreation venues and activity-based destinations worldwide.

At **accesso**, we believe technology has the power to redefine the guest experience. Our patented and award-winning solutions drive increased revenue for attraction operators while improving the guest experience. Currently serving over 1,200 clients in 33 countries around the globe, accesso's solutions help our clients streamline operations, generate increased revenues, improve guest satisfaction and harness the power of data to facilitate business and marketing decisions.

**accesso** stands as the leading technology provider of choice for tomorrow's attractions, venues and institutions. To stay ahead, we invest heavily in research and development because our industries demand it, our clients benefit from it and it makes a positive impact on the guest experience. Our innovative technology solutions allow venues to increase the volume and range of on-site spending and to drive increased transaction-based revenue through cutting edge ticketing, point-of-sale, virtual queuing, distribution and experience management software.

Many of our team members have direct, hands-on experience working in the venues we serve. In this way, we are experienced operators who run a technology company serving attractions operators, versus a technology company that happens to serve the market. From our agile development team to our dedicated client service specialists, every team member knows that their passion, integrity, commitment, teamwork and innovation are what drive our success.
