

8 May 2025

**Savannah Resources Plc
(AIM: SAV) ('Savannah', or the 'Company')**

Conference Participation during May & June 2025

Savannah Resources Plc, the developer of the Barroso Lithium Project in Portugal, a 'Strategic Project' under the European Critical Raw Materials Act and Europe's largest spodumene lithium deposit is pleased to announce that Savannah's CEO, Emanuel Proença, and other members of the Company's Board and management team will be attending the following industry conferences during May and June 2025:

- **[The 7th EIT RawMaterials Summit](#) 13-15 May, Brussels, Belgium** The annual conference for key stakeholders in the European raw material sector. Savannah is an industry partner of the EU-backed EIT RawMaterials which is mandated to support the supply of critical raw materials to the European Industry. At the Summit, Emanuel Proença (CEO) will be a speaker at the panel "Voice of Industry: Navigating the Future of Europe's Industrial Value Chains".
- **[The 2nd Brazil Lithium & Critical Minerals Summit](#) 3-5 June, Belo Horizonte, Brazil** This Summit has become a significant event in the calendar for participants in the global lithium industry to gather, network and do business while also showcasing Brazil's growing lithium industry.
- **[Fastmarkets' 17th Lithium Supply and Battery Raw Materials Conference](#) 23-26 June, Las Vegas, USA** The industry's largest and longest-running event, bringing together delegates from over 500 companies to forge partnerships and tackle the critical issues and innovations shaping the sector's future.

The Savannah team looks forward to meeting with other market participants at these events to update them on the progress being made at the Barroso Lithium Project.

Savannah - **Enabling Europe's energy transition.**

About Savannah

Savannah Resources is a mineral resource development company and the sole owner of the Barroso Lithium Project (the 'Project') in northern Portugal. The Project is the largest battery-grade spodumene lithium resource outlined to date in Europe and was classified as a 'Strategic Project' by the European Commission under the Critical Raw Materials Act in March 2025.

Through the Project, Savannah will help Portugal to play an important role in providing a long-term, locally sourced, lithium raw material supply for Europe's lithium battery value chain. Once in operation, the Project will produce enough lithium (contained in c.190,000tpa of spodumene concentrate) for approximately half a million vehicle battery packs per year and hence make a significant contribution towards the European Commission's Critical Raw Material Act goal of a minimum 10% of European endogenous lithium production from 2030. Savannah is focused on the responsible development and operation of the Barroso Lithium Project so that its impact on the environment is minimised and the socio-economic benefits that it can bring to all its stakeholders are maximised.

The Company is listed and regulated on the London Stock Exchange's Alternative Investment Market (AIM) and trades under the ticker "SAV".
