**Notes to Editors:**

Oriole Resources PLC is an AIM-quoted gold exploration company, with projects in West and Central Africa. It is focused on early-stage exploration in Cameroon, where the Company has reported a Resource of 375,000oz contained gold at 2.30g/t in the JORC Inferred category at its 90% owned Bibemi project and has identified multi-kilometre gold and lithium anomalies within the district scale Central Licence Package project. BCM International is currently earning up to a 50% interest in the Bibemi and Mbe projects in return for a combined investment of US 1.5 million in signature payments, up to US 8 million in exploration expenditure, as well as JORC resource-based success payments.

At the Senala gold project in Senegal, AGEM Senegal Exploration Sual (‘AGEM’), a wholly owned subsidiary of Managem Group, has recently completed a six-year earn-in to acquire an approximate 59% beneficial interest in the Senala Exploration Licence by spending US 5.8 million. A review of expenditure and discussions on the formation of a joint venture company are currently underway. The Company also has several interests and royalties in companies operating in East Africa and Turkey that could give future cash payments.
