Notes to Editors:

Redcentric has a strong track record in delivering IT managed services provision that empowers businesses to scale, innovate and grow in a rapidly evolving digital landscape. As technology continues to advance the Company's goal is to be the go-to-all-in-one infrastructure and managed IT service provider for customers of all sizes offering an unmatched range of products and solutions. From infrastructure management and cloud services to cybersecurity and data analytics, Redcentric has a comprehensive suite of solutions designed to meet the diverse needs of modern businesses.

The Company operates through two distinct divisions:

Managed Services Provider ('MSP'): Servicing the private and public sectors with all their IT requirements. The MSP division acts as an outsourced IT department, handling day to day maintenance and security of customers' IT infrastructures. This allows customers to improve security and efficiency and focus on growing their core businesses.

Data Centres ('DC'): Portfolio of eight well invested data centres with 41MW of available capacity strategically located across the UK from London to West Yorkshire. DC serves a diverse blue chip customer base, providing critical services to Enterprise-grade clients and Government entities reliant on secure data centres and uninterrupted connectivity.
