Corero Network Security plc

("Corero" or the "Company")

Customer Contract Expansion

[Corero](#) [(AIM: CNS)](#) [(OTCQX: DDOSF,)](#) the distributed denial of service ("DDoS") protection specialists, is pleased to announce a 5-year, 1.2 million expansion of its partnership with Lightedge, a leading provider of secure, compliant hybrid infrastructure and services. The new agreement extends Corero's high-performance DDoS protection across Lightedge's growing network of data centres in both the United States and globally, replacing an existing provider in part of the infrastructure.

The expanded deployment strengthens Lightedge's defence against increasingly sophisticated DDoS attacks targeting cloud service providers and critical infrastructure, an area under constant pressure as hybrid environments scale and regulatory expectations grow.

This contract expansion reflects a broader industry shift toward flexible, AI-ready security architectures that adapt in real-time-without manual intervention or costly downtime, which Corero's DDoS protection supports.

As organisations reassess cloud strategies and bring workloads back to private and hybrid environments, management believes that infrastructure providers globally will continue to rethink how they defend against evolving cybersecurity threats.

Carl Herberger, Chief Executive Officer at Corero, commented:

"Lightedge is helping businesses thrive in the hybrid cloud era - where performance, compliance, and uptime are non-negotiable. We're proud to deepen our partnership with Lightedge, delivering protection that's as scalable and dynamic as the threats it defends against."

About Corero Network Security

Corero Network Security is a leading provider of DDoS protection solutions, delivering real-time, automated detection and mitigation with deep network visibility and analytics. Corero safeguards critical infrastructure across diverse deployment models-from inline to edge to hybrid cloud-and is currently developing CORE, an observability and resiliency ecosystem to unify defensive actions across the modern threat landscape. With operational centres in Marlborough, Massachusetts, USA, and Edinburgh, UK, Corero is headquartered in London and listed on the London Stock Exchange's AIM market (ticker: CNS) and the US OTCQX Market (OTCQX: DDOSF).

For more information, visit www.corero.com, and follow us on LinkedIn and X.

About Reach announcements

Reach is an investor communication service aimed at assisting listed and unlisted (including AIM quoted) companies to distribute media only / non-regulatory news releases such as marketing messages, corporate and product information into the public domain. An RNS Regulatory announcement is required to be notified under the AIM Rules for Companies.
