**Asset Sales**

In January 2025, the Company announced the successful sale of the freehold of the 12,384 square metre warehouse located in Oss, The Netherlands. The transaction, completed in late December 2024, achieved a sale price of €15.7 million, in line with the most recent independent valuation at the time. Following the completion of the transaction, the Company paid down €9.9 million of the outstanding €44.2 million debt, which is cross collateralised with Ede and Waddinxveen, provided by Berlin Hyp.

Additionally, the Company announced the completion of the sale of two Spanish assets in January 2025 to Fidelity Real Estate Logistics. The assets were sold through a competitive open sales process for an aggregate consideration of €29.7 million, representing a premium of 11.9% over the Q3 2024 valuations.

Of the net proceeds from the sale of these two properties, located in Barcelona and Coslada, Madrid, €17.7 million was applied in paying down a portion of the €51 million ING Bank secured debt, which is cross collateralised with Gavilanes, Madrid, Unit 4 which is occupied by Amazon, reducing the Company's gearing.

**Repayment of Capital via B shares**

Pursuant to the authority received from Shareholders at the general meeting held on 22 November 2024 and following the sale of the above assets, the Board resolved to return approximately £16.5 million in aggregate to Shareholders via the issue of B Shares. On 7 March 2025 1,648,697,424 B Shares of one penny each were paid up from the Company's special distributable reserve and issued to all Shareholders by way of a bonus issue on the basis of 4 B Shares for every 1 Ordinary Share held at the Record Date on 6 March 2025.

The B Shares were immediately redeemed at their nominal value of one penny per B Share with a Redemption Date of 7 March 2025. The proceeds from the redemption of the B Shares, which was equivalent to 4 pence per Ordinary Share, were sent to uncertificated Shareholders through CREST with cheques posted to certificated Shareholders on 20 March 2025. No certificates were issued in respect of the B Shares.

It is currently the Board's intention to use this route again for the return of capital as further assets are sold and cash becomes available.

**Continued sales process**

Under the shareholder approved managed wind-down process, the Company's investment objective is 'to realise all existing assets in the Company's portfolio in an orderly manner' and to return net proceeds following the repayment of debt to Shareholders.

The Company is currently under offer for the sale of five assets totalling approximately 120,000 square metres and the Board is hopeful that contracts will be exchanged in the coming weeks. Subject to successful completion of these transactions and repayment of the associated debt, the Board anticipates that this will enable a further distribution of capital to Shareholders by mid-Q3. In addition, detailed due diligence and negotiations remain ongoing over three further assets in the Company's portfolio representing approximately 90,000 square metres of rentable space. Further updates will be provided as these transactions progress and complete.

Further assets are at various stages of the sales process: some are already being marketed or prepared for sale, and several have agents appointed with a view to effecting sales in Q3. In parallel, the Investment Manager continues to maintain active and direct engagement with parties interested in acquiring prime logistics space. The Investment Manager and the Board hold monthly calls with further ad-hoc meetings to review the progress of the sales programme, assess asset management initiatives,

and identity opportunities to enhance value in advance of potential disposals.
