**Spectra Systems Corporation**

**("Spectra Systems" or the "Company")**

**Spectra Systems' machine-readable and sustainably sourced Fusion™ substrate is a critical component of the house banknote designed and printed by the Casa Da Moeda Do Brazil which was announced and displayed on Tuesday June 10, 2025, at the High Security Printing - Latin America (9-11 June) in Rio de Janeiro, Brazil.**

The house banknote, produced by the Casa Da Moeda Do Brazil, is the result of a collaboration of the industry's leading companies. This impressive list of collaborators includes Spectra Systems, Oberthur Fiduciaire, SICPA and Koenig & Bauer. The house note has the highest security of any polymer note developed to date with a machine-readable covert substrate from Spectra Systems, first announced in 2019, as well as the newest public level security feature from Oberthur Fiduciaire, *Kryptonomé*. Spectra Systems has worked with Oberthur for over two years in the development of the printing technology required to produce this new security feature.

**Commenting, Dr. Nabil Lawandy, Chief Executive Officer, said:** "We are excited to have our cutting-edge sustainably sourced polymer substrate used for this breakthrough polymer banknote with arguably the highest and most innovative security features to date."
