#### **ABOUT ALCEMY CAPITAL**

Alkemy is seeking to establish independent and sustainable lithium hydroxide production by developing lithium sulphate and lithium hydroxide facilities in the UK and Australia.

Alkemy, through its wholly owned UK subsidiary Tees Valley Lithium, has secured a 9.6 ha brownfields site with full planning permission at the Wilton International Chemicals Park in Teesside, a major UK Freeport, to build the UK's first and one of Europe's largest lithium hydroxide processing facility.

Tees Valley Lithium has completed a Class 4 Feasibility Study for its proposed lithium hydroxide refinery which will process feedstock imported from various sources to produce 96,000 tonnes of premium, low-carbon lithium hydroxide or an equivalent amount of lithium carbonate annually, representing around 15% of Europe's projected demand.

Alkemy, through its wholly owned Australian subsidiary Port Hedland Lithium, has secured a 43.7 ha site at the Boodarie strategic industry area, near Port Hedland, Western Australia to build a world-class sustainable lithium sulphate refinery that will provide reliable feedstock for Tees Valley Lithium's refinery.

Port Hedland Lithium has completed a Class 4 Feasibility Study for its proposed lithium sulphate refinery, each train of which will process spodumene concentrate to produce 40,000 tonnes of lithium sulphate annually.

#### **Forward Looking Statements**

This news release contains forward-looking information. The statements are based on *reasonable assumptions and expectations of management and Alkemy provides no assurance that actual events will meet management's expectations. In certain cases, forward-looking information may be identified by such terms as "anticipates", "believes", "could", "estimates", "expects", "may", "shall", "will", or "would".* Although Alkemy believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those projected. In addition, factors that could cause actual events to differ materially from the forward-looking information stated herein include changes in market conditions, changes in metal prices, general economic and political conditions, environmental risks, and community and non-governmental actions. Such factors will also affect whether Alkemy will ultimately receive the benefits anticipated pursuant to relevant agreements. This list is not exhaustive of the factors that may affect any of the forward-looking statements. These and other factors should be considered carefully and readers should not place undue reliance on forward-looking information.
