PANTHEON INFRASTRUCTURE PLC

Publication of Sustainability Report

Pantheon Infrastructure PLC ("PINT" or "the Company"), the listed global infrastructure fund, has published its Sustainability Report for 2024 (the "Report").

The Report is available to read and download from the Sustainability page on the Company's website: Sustainability - PINT (pantheoninfrastructure.com).

As an Article 8 fund, PINT believes that sound sustainability practices are key to building resilient infrastructure assets and creating long-term value for PINT's shareholders and other stakeholders. This is particularly important in the current macroeconomic and geopolitical environment, where a robust governance framework is critical for maintaining stakeholder confidence. An updated SFDR Periodic Report is also available on the Company's website.

The Report contains the Company's product-level disclosures aligned to the recommendations of the Task Force on Climate-related Financial Disclosures ("TCFD") and the Financial Conduct Authority ("FCA") ESG Sourcebook, including portfolio-level Scope 1, 2 and 3 greenhouse gas ("GHG") emissions.

The Report also captures the progress of PINT and its investment manager, Pantheon, during 2024. For the first time this year, the Company is reporting against a new framework, Private Markets Decarbonisation Roadmap ("PMDR"), which is designed to improve the disclosure of decarbonisation progress across the Company's portfolio. In addition, Pantheon's sustainability scorecards have been enhanced to incorporate a new GHG data reporting scorecard to support better engagement with PINT's sponsors on reporting and transparency.

Richard Sem, Partner at Pantheon, PINT's investment manager, commented: "We are delighted to present PINT's Sustainability Report for 2024. We continue to recognise that a systemic and strategic approach to sustainability is key to building resilient infrastructure assets and supports the Company's wider objective of managing risk and creating long-term value for our shareholders and other stakeholders. We are constantly looking for ways to update, refine, and innovate our sustainability strategy to ensure that material sustainability factors are appropriately integrated across our investment processes."

Andrea Finegan, the Chair of PINT's Sustainability Committee, commented: "The Committee remains focused on ensuring the integration of sustainability considerations into the investment process, and monitoring the Company's governance policies and practices, oversight of sustainability issues, stakeholder engagement and reporting transparency and accuracy. We remain confident in the sustainability initiatives across our current portfolio and in our ability to identify attractive investment opportunities that generate strong returns for our shareholders while aligning with sound sustainability practices."

Notes to editors

Pantheon Infrastructure PLC (PINT)

Pantheon Infrastructure PLC is a closed-ended investment company and an approved UK Investment Trust, listed on the London Stock Exchange's Main Market and a constituent of the FTSE 250. Its Ordinary Shares trade under the ticker 'PINT'. The independent Board of Directors of PINT have appointed Pantheon, one of the leading private markets investment managers globally, as investment manager. PINT aims to provide exposure to a global, diversified portfolio of high-quality infrastructure assets through building a portfolio of direct co-investments in infrastructure assets with strong defensive characteristics, typically benefitting from contracted cash flows, inflation protection and conservative leverage profiles.

Pantheon

Pantheon has been at the forefront of private markets investing for more than 40 years, earning a reputation for providing innovative solutions covering the full lifecycle of investments, from primary fund commitments to co-investments and secondary purchases, across private equity, real assets and private credit.

The firm has partnered with more than 650 clients, including institutional investors of all sizes as well as a growing number of private wealth advisers and investors, with approximately 71bn in discretionary assets under management (as of December 31, 2024).

Leveraging its specialized experience and global team of professionals across Europe, the Americas and Asia, Pantheon invests with purpose and leads with expertise to build secure financial futures.

Pantheon was one of the first private equity investors to sign up to the Principles for Responsible Investments ("PRI") in 2007 and has used these principles as a framework to develop its sustainability policy across all its investment activities. Since becoming a signatory, Pantheon has remained highly engaged with the PRI and has been heavily focused on sustainability integration, both through its involvement with associates and industry bodies, and through its integration of ESG analysis into its investment process.
