### **About Corcel**

Corcel has a notable oil and gas portfolio in onshore Angola that includes brownfield redevelopment opportunities and significant exploration upside. Corcel marked a new country entry into Brazil through the option to acquire rights to producing gas and exploration assets, further diversifying its portfolio and enhancing its growth potential.

Corcel's Angola portfolio consists of interests in three licenses:

- KON - 16 upon completion: operated - 80% working interest - 71.5% net to CRCL
- KON - 11 Non-Operated - 20% working interest - 18% net to CRCL
- KON - 12 Non-Operated - 25% working interest - 22.5% net to CRCL

Corcel's Brazil portfolio consists of the option to acquire:

- 20% interest in the IRAI gas field
- Right-of-first-refusal ("ROFR") over the remaining 80% in the IRAI field

- Right-of-first refusal (ROFR) over the remaining 80% in the block
- ROFR for 100% of the adjacent TUC-T-172 exploration block, located in the state of Bahia, onshore Brazil

Corcel's Battery Metals portfolio consists of an 80% working interest in the Mt Weld Rare Earth Elements project in Western Australia.
