Seascope Energy Asia plc
(the "Company", "Seascope Energy" or "Seascope")

New Investor Presentation

Seascope Energy, an E&P company focused on Southeast Asia, is pleased to announce that, in conjunction with an investor roadshow in London, an updated corporate presentation will be available on the Company's website from 9:00 AM BST.

The presentation does not contain any material, new information but highlights for investors Seascope's recent expanded scale and scope in Southeast Asia and the growth potential which remains both in the existing portfolio and across the region.

Work continues on an independent Competent Persons Report ("CPR") by Sproule-ERCE which will incorporate the contingent resources in the Temaris Cluster and DEWA Complex Cluster and the potentially significant prospective resources in the Temaris Cluster. It is anticipated that the results of the CPR will be published during the summer 2025.
