**ERRATUM: PRODUCTION REPORT FOR THE THIRD QUARTER FY2025 ENDED 30 JUNE 2025**

On 9 July 2025, Tharisa the mining, metals, and innovation company dual-listed on the Johannesburg and London stock exchanges, announced its production results for Q3 FY2025 and cash balance at 30 June 2025.

The Company inadvertently understated its cash balance as it did not account for cash held on deposit with a financial institution. The correct number for cash on hand is US 164.6 million (9 July 2025 announcement reported as US 150.9 million) with debt remaining as reported at US 121.5 million, resulting in a net cash position of US 43.1 million (9 July 2025 announcement reported as US 29.4 million).

All other information disclosed in the production results for Q3 FY2025 remains unchanged.

**About Tharisa**

Tharisa is an integrated resource group critical to the energy transition and decarbonisation of economies. It incorporates exploration, mining, processing and the beneficiation, marketing, sales, and logistics of PGMs and chrome concentrates, using innovation and technology as enablers. Its principal operating asset is the multi-generational Tharisa Mine, located in the south-western limb of the Bushveld Complex, South Africa. Tharisa is also developing the Karo Platinum Project, a tier-one PGM asset located on the Great Dyke in Zimbabwe, while simultaneously focusing on beneficiation in the form of chrome and PGM alloys. A 15-year Power Purchase Agreement for the procurement of wheeled renewable energy and a 40 MW solar project will ensure that Tharisa Minerals' drive to reduce its carbon footprint by 30% by 2030 is well within reach, forming a major part of a roadmap to become net carbon neutral by 2050. Redox One is accelerating the development of a proprietary iron chromium redox flow long-duration battery utilising the commodities we mine. Tharisa plc is listed on the Johannesburg Stock Exchange (JSE: THA) and has an Equity Shares (Transition) Category listing on the London Stock Exchange (LSE: THS).
