Eurasia Mining plc

AIX Trading Update

Eurasia Mining PLC ("Eurasia" or the "Company"), the iridium, osmium, palladium, platinum, rhodium, ruthenium and gold mining company is pleased to announce an update on Astana International Exchange (AIX) trading.

As announced via RNS on 15 July 2025, Eurasia's ordinary shares have been listed and are admitted to regular trading on AIX. Also as announced, SQIF Capital Joint Stock Company ("SQIF") was appointed Eurasia's market maker in relation to AIX.

SQIF has now informed the Company that it has started buying Eurasia's shares on AIM in order to transfer them via Euroclear to the AIX's depository. Until Eurasia's shares are transferred to AIX's depository there could be no trading on AIX due to no shares being available there.

Christian Schaffalitzky, the Executive Chairman commented: "The Directors are delighted that the dual listing has been successfully completed. We are looking forward to the trading to commence on AIX, once our market makers buy Eurasia's shares on AIM and transfer them to AIX later this week or next week at the latest".
