About AFC Energy

AFC Energy plc is a leading provider of hydrogen energy solutions, to provide clean electricity for on and off grid power applications. The Company's fuel cell technology is now deployable as electric vehicle chargers, off-grid decentralised power systems for construction and temporary power with emerging opportunities across maritime, data centres and rail as part of a portfolio approach to the decarbonisation of society's growing electrification needs.

The Company's proprietary ammonia cracking technology further highlights emerging opportunities across the distributed hydrogen production market with a focus on hydrogen's role in supporting industries facing challenges in decarbonisation, such as mining, cement and heavy engineering.
