

29 July 2025

t42 IoT Tracking Solutions plc

("t42" or the "Company")

Extension of CLN

Further to the Company's announcement on 16 May 2025, T42 is pleased to confirm that on 28 July 2025 it entered into an agreement (the "Extension Agreement") for the extension of the maturity date of the £925,000 secured convertible loan notes ("CLNs"), originally subscribed on 22 December 2021.

The Extension Agreement provides for the extension of the CLN maturity date to be extended until the 10 December 2027, together with a scheduled repayment of the CLNs. Repayment of the CLNs commences in July 2025, with regular repayments of capital and accrued interest in monthly instalments. The Extension Agreement provides for security by way of fixed and floating charges over the assets of t42's Helios division. The remaining terms of the CLNs, as announced on 7 March 2024, remain in force.

In parallel, as also announced on 16 May 2025, t42 continues discussions to extend the repayment date of the Company's 1.3m secured convertible loan notes ("Second CLN"), subject to finalisation of terms and agreements, although there can be no certainty that definitive documentation will be concluded or the timing thereof. A further announcement will be made in due course.

Notes to Editors

t42 IoT Tracking Solutions plc (AIM: TRAC), formerly Starcom Systems plc, provides real-time tracking, analysis, monitoring, and security IoT solutions for the global container and freight market and covers 55 countries, over 100 distributors, and 50 logistics and support partners.

t42's multi-sensor IoT tracking devices use a wide range of detection capabilities with cloud-based analytics and alerts, with real-time data transmission, analysis, and actionable insights. Its devices are used by ports, cargo owners, shipping companies, freight forwarders, insurance companies, customs authorities, homeland security, and police for end-to-end global container tracking and digital transformation of shipments.
