

M. P. EVANS GROUP PLC
("THE GROUP")

PUBLICATION OF TCFD REPORT

M.P. Evans Group PLC, a producer of sustainable Indonesian palm oil, is pleased to announce the publication of its 2024 report based on the guidelines of the Taskforce on Climate-related Financial Disclosures (the "TCFD").

The report sets out the Group's governance framework and risk-management process for climate-related issues, along with insights into its strategic response. It also measures the Group's total greenhouse-gas emissions, expressed in tonnes of CO₂ equivalents, for 2024, along with the progress made since the Group's baseline year for TCFD reporting in 2021.

Total emissions have reduced by 36% since the baseline year. The Group is working towards its established net-zero targets, along with other climate-related targets and has increased the amount of protected conservation land managed by the Group to more than 10% of its total planted area. Further details are included in the report.

A copy of the TCFD report is available for download from the sustainability section of the Group website (mpevans.co.uk/sustainability/sustainability-reports), and the Group has a limited number of printed copies available, which can be requested from the head office (enquiries@mpevans.co.uk).
