Extended Funding Facilities

Improved facilities now exceed £250m, providing fuel for future growth

Time Finance plc, the AIM listed independent specialist finance provider, is pleased to announce that it has increased its total funding facilities to an aggregate of more than £250m. The renewed and enhanced facilities now in place, arranged across a diversified panel of eight long-standing and supportive funding partners, provide the Group with funding headroom of over £95m. This positions the Company to further support UK businesses throughout the country as it continues to implement its three-year growth strategy through to May 2028.

James Roberts, Chief Financial Officer, commented:

"I am delighted that the Group has put in place substantial funding facilities as we embark on our new three-year growth plan. The previous plan, from June 2021 to May 2025, saw Invoice Finance lending increase by 170% and Hard Asset lending by 249%. Strong demand for both product sets has continued to be experienced in the first months of the new financial year which began on 1 June 2025.

"As such, the significant headroom provided by these larger and more flexible facilities across all lending divisions position the Group well as it looks to further support UK business requiring funding for business-critical equipment through Asset Finance or working capital solutions through Invoice Finance."
