## PETROFAC LIMITED

### Restructuring and business update

Petrofac today issues an update on its Restructuring Plan and the progress of the business in the six months ending 30 June 2025.

#### Restructuring update

- The Group announces the extension of the original Lock-Up Agreement. The Group's bondholders, investors and those creditors party to the Lock-Up Agreement have reinforced their support for the Group by committing to an extension until 30 November 2025.
- The Board has identified and is actively progressing a number of routes to deliver the Restructuring, including through a Plan that addresses the narrow grounds on which the Court of Appeal issued its judgment on 1 July 2025. The Board welcomes the extension of the Lock-Up Agreement and the ongoing support of key clients which provide the Group with a stable platform to continue to pursue the Restructuring.
- Additionally, the Group will today apply to the Supreme Court for leave to appeal the judgment handed down by the Court of Appeal on 1 July.

#### First Half Business highlights

- All business units continued to execute contracts despite the Group's financial constraints:
  - Progress was maintained on the current ADNOC and TenneT contracts;
  - Legacy contracts continued to be closed out and now represent a small proportion of E&C's contract backlog.
- First Half Business Performance Revenue and EBIT are expected to be significantly ahead of the prior year despite financial constraints impacting project costs and schedules.
- E&C secured two major new contracts with ADNOC:
  - US 330 million EPC contract for new gas compressor plant at the Habshan complex;
  - EPC Management Services contract for a US 1.2 billion project to expand gas production facilities on Das Island.
- Asset Solutions secured around US 500 million new orders.
- Group backlog<sup>(1)(3)</sup> was US 6.7 billion at 30 June, broadly in line with the 2024 year-end.
- The Group has been able to maintain liquidity to support its operations, reflecting,
  - suspension of debt service payments;
  - commercial settlements and associated collections secured as part of the close out of legacy contracts;
  - supportive supply chain and customer relationships, and careful cash flow management.
- US 40 million of net liquidity<sup>(2)(3)</sup> was generated in the First Half, increasing Group's net liquidity to US 192 million at 30 June 2025 (31 December 2024: US 152 million).
- Group's pipeline remains strong, largely focused on the MENA region and ETP opportunities.

#### Tareq Kawash, Petrofac's Group Chief Executive, commented:

*"The agreement of stakeholders to extend the Lock-Up demonstrates their support for the work underway to address the narrow grounds on which the Court of Appeal upheld the challenge to our Restructuring Plan. While the need for the balance sheet restructuring remains clear, the commitments formalised today give me confidence that we can deliver a successful outcome.*

*"Petrofac's operational capability remains intact, and the business continues to deliver for its clients. We have secured new contract awards and have a strong pipeline of future opportunities. This is in no small part thanks to the dedication of our people, and the continued support of our clients and suppliers. Following a prolonged period of challenge for the Group, I am more focused than ever on delivering the best possible outcome for all stakeholders."*

#### ENDS

1. Backlog consists of the estimated revenue attributable to the uncompleted portion of E&C projects; and for the Asset Solutions division, the revenue attributable to the lesser of the remaining contract term and five years.

2. Net liquidity consisted of gross cash, less cash held in countries whose exchange controls restrict or delay remittance of these amounts to foreign countries, less cash held in jointly controlled consortium bank accounts, and less cash held in joint operation bank accounts which are generally available to meet the working capital requirements of these joint ventures but can only be made available to the Group for general corporate use with the agreement of the joint-venture partners.
3. Full-Year 2024 balances unaudited.
