

The information contained within this announcement is deemed by the Company to constitute inside information under the Market Abuse Regulation (EU) No. 596/2014 ("MAR") as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 and is disclosed in accordance with the Company's obligations under Article 17 of MAR.

QUARTERLY ACTIVITIES REPORT 30 June 2025

European Metals Holdings Limited (ASX & AIM: EMH, OTCQX and OTCQB: EMHXY and EMHLF) ("European Metals" or the "Company") is pleased to provide an update on its activities during the three-month period ending 30 June 2025. Continued progress with the development of the globally significant Cinovec Lithium Project ("**the Project**" or "**Cinovec**") in the Czech Republic has been made over this period.

USD 36 Million Just Transition Fund Grant Approved for Cinovec

On 28 April 2025, the Company announced that the Czech selection panel of the managing authority for the European Union's Just Transition Fund ("JTF") had approved a CZK 800 million (USD 36 million) grant to the Cinovec Project. (see the Company's ASX/AIM announcement of 28 April 2025) ("**USD 36 million JTF Grant Approved for Cinovec Project**").

The JTF grant provides substantial non-dilutive financial support to advance project development and is a significant endorsement by both Czech and European authorities of Cinovec's strategic role in the EU's clean energy transition. The grant is conditional upon the submission of the Project's Environmental Impact Assessment ("EIA") by 31 December 2025, and its approval by the Czech Ministry of Environment by 30 June 2026.

The terms and conditions of the JTF grant will be detailed in the contract between the grant provider (Czech Ministry of Environment) and the beneficiary, the Cinovec Project holding company, Geomet s.r.o. The contract will detail milestones, including the EIA and construction permitting timetable, as well as the conditions for advance payments and reimbursement of costs incurred by the beneficiary. The conditions will also include how the Project's progress will be reported to the Czech Ministry of Environment which is the managing authority for JTF projects.

Progress on Definitive Feasibility Study and Environmental Permitting

During the quarter, the Definitive Feasibility Study ("DFS"), led by DRA Global, continued to progress across all key workstreams and incorporates production optimisation scenarios identified in the Concept Study announced in December 2024 and clarified in January 2025.

These scenarios consider an increase in ROM ore processing beyond the 29,386 tpa level outlined in the 2022 Preliminary Feasibility Study, without requiring an expansion to the surface footprint of the underground mine. Importantly, these enhancements are not expected to delay the DFS.

The Company also continued its preparatory work for submission of the Project's Environmental Impact Assessment, targeted for completion by year end, consistent with Czech permitting requirements and conditions attached to the JTF grant.

Cinovec continues to be recognised as a project of strategic importance to both the Czech Republic and the European Union, with a permitting pathway that is being advanced through supportive regulatory and funding frameworks.

CORPORATE AND ADMINISTRATION

QUARTERLY CASHFLOW REPORT

In accordance with the ASX Listing Rules, the Company will also today lodge its cashflow report for the quarter ended 30 June 2025. Cash outflows of 2.582 million were incurred during the quarter in relation to the Cinovec DFS costs, as part of the Company's investment in the Cinovec Lithium Project in the Czech Republic.

The Company's total cash is 994,978 as at 30 June 2025.

PAYMENTS TO RELATED PARTIES

As outlined in the attached Appendix 5B (section 6.1), during the quarter approximately 238,000 in payments were made to related parties and their associates for director salaries, consultancy fees, superannuation and other related costs. A portion of these expenses is to be reimbursed directly from Geomet.

CHANGE OF COMPANY SECRETARY

After the quarter end the Company announced the resignation of Henko Vbs as Company Secretary and the appointment of Ms Sujana Karthik as Company Secretary, effective 14 July 2025. (see the Company's ASX/AIM announcement of 16 July 2025) ("**Change of Company Secretary**").

CHANGE OF ADDRESS

In accordance with Listing Rule 3.14, European Metals Limited ("**European Metals**" or "the Company") advises that effective immediately, European Metals' registered office has changed to:

Ground Floor, 41 Colin Street

West Perth WA 6005

The principal administrative office, postal address and phone number remains unchanged.

GEOMET TENEMENT SCHEDULE

Table 1: Geomet Tenements

Permit	Code	Deposit	Interest at beginning of Quarter	Acquired / Disposed	Interest at end of Quarter
Exploration Area	Cinovec	N/A	100%	N/A	100%
	Cinovec II		100%	N/A	100%
	Cinovec III		100%	N/A	100%
	Cinovec IV		100%	N/A	100%
Preliminary Mining Permit	Cinovec II	Cinovec South	100%	N/A	100%
	Cinovec III	Cinovec East	100%	N/A	100%
	Cinovec IV	Cinovec Northwest	100%	N/A	100%

This announcement has been approved for release by the Board.

BACKGROUND INFORMATION ON CINOVEC

PROJECT OVERVIEW

Cinovec Lithium Project

Geomet s.r.o. ("**Geomet**") controls the mineral exploration licenses awarded by the Czech State over the Cinovec Lithium Project. Geomet has been granted a preliminary mining permit by the Ministry of Environment and the Ministry of Industry. The company is owned 49% by EMH and 51% by CEZ a.s. through its wholly owned subsidiary, SDAS. Cinovec hosts a globally significant hard rock lithium deposit with a total Measured Mineral Resource of 53.3Mt at 0.48% Li₂O, Indicated Mineral Resource of 360.2Mt at 0.44% Li₂O and an Inferred Mineral Resource of 294.7Mt at 0.39% Li₂O containing a combined 7.39 million tonnes Lithium Carbonate Equivalent (refer to the Company's ASX/ AIM release dated 13 October 2021) (**Resource Upgrade at Cinovec Lithium Project**).

An initial Probable Ore Reserve of 34.5Mt at 0.65% Li₂O reported 4 July 2017 (**Cinovec Maiden Ore Reserve - Further Information**) has been declared to cover the first 20 years mining at an output of 22,500tpa of lithium carbonate (refer to the Company's ASX/ AIM release dated 11 July 2018) (**Cinovec Production Modelled to Increase to 22,500tpa of Lithium Carbonate**).

This makes Cinovec the largest hard rock lithium deposit in Europe and the fifth largest non-brine deposit in the world.

Cinovec has been designated a Strategic Project by the European Union under the Critical Raw Materials Act. (refer to the Company's ASX/ AIM release dated 26/25 March 2025) (**Cinovec declared a Strategic Project under EU Critical Raw Materials Act**) and a Strategic Deposit by the Czech Government (refer to the Company's ASX/ AIM release dated 7 March 2025) (**Cinovec declared Strategic Deposit by Czech Government**).

The deposit has previously had over 400,000 tonnes of ore mined as a trial sub-level open stope underground mining operation.

On 19 January 2022, EMH provided an update to the 2019 PFS Update. It confirmed the deposit is amenable to bulk underground mining (refer to the Company's ASX/ AIM release dated 19 January 2022) (**PFS Update delivers outstanding**

results). Metallurgical test-work has produced both battery-grade lithium hydroxide and battery-grade lithium carbonate at excellent recoveries. In February 2023 DRA Global Limited ("**DRA**") was appointed to complete the Definitive Feasibility Study ("**DFS**").

Cinovec is centrally located for European end-users and is well serviced by infrastructure, with a sealed road adjacent to the deposit, rail lines located 5 km north and 8 km south of the deposit, and an active 22 kV transmission line running to the historic mine. The deposit lies in an active mining region.

The Cinovec processing plant comprises of a Front-End Comminution and Beneficiation circuit ("**FECAB**") and Lithium Chemical Plant circuit ("**LCP**") in combination producing Lithium Hydroxide or Lithium Carbonate end products and will be located on the Pruněrov 1 Power Station site located approximately 59km by rail from the Cinovec mine site. (refer to the Company's ASX/ AIM releases dated 26 April 2024 (**New Lithium Plant Site Expected to Improve Project Permitting and Economics**) and 27 November 2024 (**Cinovec Project Update**)).

The economic viability of Cinovec has been enhanced by the recent push for supply security of critical raw materials for battery production, including the strong increase in demand for lithium globally, and within Europe specifically, as demonstrated by the European Union's Critical Raw Materials Act ("**CRMA**").

BACKGROUND INFORMATION ON CEZ

Headquartered in the Czech Republic, CEZ a.s. is one of the largest companies in the Czech Republic and a leading energy group operating in Western and Central Europe. CEZ's core business is the generation, distribution, trade in, and sales of electricity and heat, trade in and sales of natural gas, and coal extraction. The foundation of power generation at CEZ Group are emission-free sources. The CEZ strategy named Clean Energy for Tomorrow is based on ambitious decarbonisation, development of renewable sources and nuclear energy. CEZ announced that it would move forward its climate neutrality commitment by ten years to 2040.

The largest shareholder of its parent company, CEZ a.s., is the Czech Republic with a stake of approximately 70%. The shares of CEZ a.s. are traded on the Prague and Warsaw stock exchanges and included in the PX and WIG-CEE exchange indices. CEZ's market capitalisation is approximately EUR 20.3 billion.

As one of the leading Central European power companies, CEZ intends to develop several projects in areas of energy storage and battery manufacturing in the Czech Republic and in Central Europe.

CEZ is also a market leader for E-mobility in the region and has installed and operates a network of EV charging stations throughout Czech Republic. The automotive industry in the Czech Republic is a significant contributor to GDP, and the number of EVs in the country is expected to grow significantly in the coming years.

COMPETENT PERSONS

Information in this release that relates to the FECAB metallurgical testwork is based on, and fairly reflects, technical data and supporting documentation compiled or supervised by Mr Walter Mädel, a full-time employee of Geomet s.r.o an associate of the Company. Mr Mädel is a member of the Australasian Institute of Mining and Metallurgy (AUSIMM) and a mineral processing professional with over 27 years of experience in metallurgical process and project development, process design, project implementation and operations. Of his experience, at least 5 years have been specifically focused on hard rock pegmatite Lithium processing development. Mr Mädel consents to the inclusion in the announcement of the matters based on this information in the form and context in which it appears. Mr Mädel is a participant in the long-term incentive plan of the Company.

Information in this release that relates to exploration results is based on, and fairly reflects, information and supporting documentation compiled by Dr Vojtech Sesulka. Dr Sesulka is a Certified Professional Geologist (certified by the European Federation of Geologists), a member of the Czech Association of Economic Geologist, and a Competent Person as defined in the JORC Code 2012 edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Dr Sesulka has provided his prior written consent to the inclusion in this report of the matters based on his information in the form and context in which it appears. Dr Sesulka is an independent consultant with more than 10 years working for the EMH or Geomet companies. Dr Sesulka does not own any shares in the Company and is not a participant in any short- or long-term incentive plans of the Company.

Information in this release that relates to metallurgical test work and the process design criteria and flow sheets in relation to the LCP is based on, and fairly reflects, information and supporting documentation compiled by Mr Grant Haman (B.Sc Chem Eng, B.Com). Mr Haman is an independent consultant and the principal of Lithium Consultants Australasia Pty Ltd with in excess of 14 years of lithium chemicals experience. Mr Haman has provided his prior written consent to the inclusion in this report of the matters based on his information in the form and context that the information appears. Mr Haman is a participant in the long-term incentive plan of the Company.

The information in this release that relates to Mineral Resources and Exploration Targets is based on, and fairly reflects, information and supporting documentation prepared by Mr Lynn Widenbar. Mr Widenbar, who is a Member of the Australasian Institute of Mining and Metallurgy and a Member of the Australasian Institute of Geoscientists, is a full-time employee of Widenbar and Associates and produced the estimate based on data and geological information supplied by European Metals. Mr Widenbar has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the JORC Code 2012 Edition of the Australasian Code for Reporting of Exploration Results, Minerals Resources and Ore Reserves. Mr Widenbar has provided his prior written consent to the inclusion in this report of the matters based on his information in the form and context that the information appears. Mr Widenbar does not own any shares in the Company and is not a participant in any short- or long-term incentive plans of the Company.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

CAUTION REGARDING FORWARD LOOKING STATEMENTS

Information included in this release constitutes forward-looking statements. Often, but not always, forward looking statements can generally be identified by the use of forward looking words such as "may", "will", "expect", "intend", "plan", "estimate", "anticipate", "continue", and "guidance", or other similar words and may include, without limitation, statements regarding plans, strategies and objectives of management, anticipated production or construction commencement dates and expected costs or production outputs.

Forward looking statements inherently involve known and unknown risks, uncertainties and other factors that may cause the company's actual results, performance, and achievements to differ materially from any future results, performance, or achievements. Relevant factors may include, but are not limited to, changes in commodity prices, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, including the risks of obtaining necessary licences and permits and diminishing quantities or grades of reserves, political and social risks, changes to the regulatory framework within which the company operates or may in the future operate, environmental conditions including extreme weather conditions, recruitment and retention of personnel, industrial relations issues and litigation.

Forward looking statements are based on the company and its management's good faith assumptions relating to the financial, market, regulatory and other relevant environments that will exist and affect the company's business and operations in the future. The company does not give any assurance that the assumptions on which forward looking statements are based will prove to be correct, or that the company's business or operations will not be affected in any material manner by these or other factors not foreseen or foreseeable by the company or management or beyond the company's control.

Although the company attempts and has attempted to identify factors that would cause actual actions, events or results to differ materially from those disclosed in forward looking statements, there may be other factors that could cause actual results, performance, achievements or events not to be as anticipated, estimated or intended, and many events are beyond the reasonable control of the company. Accordingly, readers are cautioned not to place undue reliance on forward looking statements. Forward looking statements in these materials speak only at the date of issue. Subject to any continuing obligations under applicable law or any relevant stock exchange listing rules, in providing this information the company does not undertake any obligation to publicly update or revise any of the forward looking statements or to advise of any change in events, conditions or circumstances on which any such statement is based.

LITHIUM CLASSIFICATION AND CONVERSION FACTORS

Lithium grades are normally presented in percentages or parts per million (ppm). Grades of deposits are also expressed as lithium compounds in percentages, for example as a percent lithium oxide (Li₂O) content or percent lithium carbonate (Li₂CO₃) content.

Lithium carbonate equivalent ("**LCE**") is the industry standard terminology for, and is equivalent to, Li₂CO₃. Use of LCE is to provide data comparable with industry reports and is the total equivalent amount of lithium carbonate, assuming the lithium content in the deposit is converted to lithium carbonate, using the conversion rates in the table included below to get an equivalent Li₂CO₃ value in percent. Use of LCE assumes 100% recovery and no process losses in the extraction of Li₂CO₃ from the deposit.

Lithium resources and reserves are usually presented in tonnes of LCE or Li.

The standard conversion factors are set out in the table below:

Conversion Factors for Lithium Compounds and Minerals

Convert from		Convert to Li	Convert Li ₂ O to	Convert Li ₂ CO ₃ to	Convert to LiOH.H ₂ O
Lithium	Li	1.000	2.153	5.325	6.048
Lithium Oxide	Li ₂ O	0.464	1.000	2.473	2.809
Lithium Carbonate	Li ₂ CO ₃	0.188	0.404	1.000	1.136
Lithium Hydroxide	LiOH.H ₂ O	0.165	0.356	0.880	1.000
Lithium Fluoride	LiF	0.268	0.576	1.424	1.618

3.2	Proceeds from issue of convertible debt securities	-	-
3.3	Proceeds from exercise of options	-	-
3.4	Transaction costs related to issues of equity securities or convertible debt securities	-	-
3.5	Proceeds from borrowings	-	-
3.6	Repayment of borrowings	-	-
3.7	Transaction costs related to loans and	-	-

3.7	Transaction costs related to loans and borrowings	Current quarter A'000	-	Year to date (6 months) A'000	-
3.8	Dividends paid		-		-
3.9	Other (Lease Payments)		(5)		(18)
3.10	Net cash used in financing activities		(5)		(18)

4.	Net increase / (decrease) in cash and cash equivalents for the period				
4.1	Cash and cash equivalents at beginning of period		4,341		3,524
4.2	Net cash from / (used in) operating activities (item 1.9 above)		(681)		73
4.3	Net cash from / (used in) investing activities (item 2.6 above)		(2,582)		(2,582)
4.4	Net cash from / (used in) financing activities (item 3.10 above)		(5)		(18)
4.5	Effect of movement in exchange rates on cash held		(78)		(2)
4.6	Cash and cash equivalents at end of period		995		995

5.	Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter A'000	Previous quarter A'000
5.1	Bank balances	478	2,575
5.2	Call deposits	517	1,766
5.3	Bank overdrafts	-	-
5.4	Term deposit less than 3 months	-	-
5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	995	4,341

6.	Payments to related parties of the entity and their associates	Current quarter A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	238
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-
<i>Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.</i>		

Amounts paid to directors as director remuneration.

7.	Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end A'000	Amount drawn at quarter end A'000
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	-	-
7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8.	Estimated cash available for future operating activities	A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(681)
8.2	Payments for exploration & evaluation classified as investing	

8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(681)
8.4	Cash and cash equivalents at quarter end (item 4.6)	995
8.5	Unused finance facilities available at quarter end (item 7.6)	-
8.6	Total available funding (item 8.4 + item 8.5)	995
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	1.46
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>		
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer:		
The Company expects to have similar operating cashflows for the foreseeable future as it continues development of the globally significant Cinovec Lithium Project.		
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer:		
At present, the Company has not initiated any new fundraising activities. However, the Company is confident in securing additional working capital through a new equity issue or loans to meet any future obligations.		
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer:		
The Company expects to be able to continue its activities, noting that the directors are aware that the Group has the option, if necessary, to defer certain expenditure or to reduce administration costs in order to minimise cash outflows. The directors are also remain confident that, if required, the Company will be successful in raising additional funds through the issue of new equity.		
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>		

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 30 July 2025

Authorised by: The Board
(Name of body or officer authorising release - see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: *Exploration for and Evaluation of Mineral Resources* and AASB 107: *Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee - eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
