

Jangada Mines plc / EPIC: JAN.L / Market: AIM / Sector: Mining

22 August 2025

Jangada Mines plc ('Jangada' or 'the Company')

New Corporate Presentation
The Paranaíba Gold Project Acquisition

Jangada Mines plc (AIM: JAN), a natural resources development company with assets in Brazil and other jurisdictions, is pleased to announce that an updated corporate presentation is now available on the Company's website and can be viewed via the following link:

<https://jangadamines.com/investors/presentations/>

The presentation provides further information on the 7,211-hectare Paranaíba Gold Project ("Paranaíba" or the "Project"), as announced on 21 July 2025, located in Brazil's historically significant Alta Floresta - Jurueña Gold Province, as well as information on the 100%-owned Pitombeiras vanadium titanomagnetite project in the state of Ceará, in the Northeast Region of Brazil. Additionally, it provides details on the Company's investments in London listed Blencowe Resources PLC (LSE: BRES), which is developing the world class graphite project in Uganda, and Fodere Titanium Limited, a UK minerals technology company, which has developed new and innovative commercial processes and applications in extractive metallurgy.

New CEO Paulo Misk, has spent the past week on site at Paranaíba (see pictures below), conducting a detailed review of the Project and existing data, and preparing for the near-term commencement of exploration activities. With the Company's recent funding and director fee conversions, as announced on 21 July 2025, Jangada is well capitalised to advance the Project.

The Project is supported by a highly experienced team and has already defined an 8km mineralised corridor containing 15 primary high-grade gold occurrences, including a drilled intersection grading over 18g/t. Together with the Jangada team, led by Paulo, the focus will be on unlocking significant value in a highly cost-effective manner.

An operational update will be provided in the near term as Jangada enters an exciting new phase of development.
