#### Notes to Editors:

Predator is an oil & gas company with a diversified portfolio of assets including unique and highly prospective onshore Moroccan gas exposure and production, appraisal and exploration projects onshore Trinidad.

Morocco offers a potentially faster route to commercialisation of shallow biogenic gas through a CNG or micro-LNG development. The MOU-3 well is currently the focus of rigless well testing activities following the perforation of the

shallow "A" Sand and shut in of the well to observe for potential reservoir clean-up and pressure build-up over time. Moroccan gas prices are high, and the fiscal terms are some of the best in the world.

Trinidad offers the security of a mature onshore oil province that has been producing hydrocarbons for over 50 years. Predator is assembling a portfolio of onshore producing fields with opportunities for production enhancement and additional infill development and appraisal drilling. Significant legacy tax losses, economies of scale and the application of new low-cost technologies are factors that can improve profit margins per barrel of oil produced.

Predator has an experienced management team with particular knowledge of the Moroccan and Trinidad sub- surface and operations.

Predator Oil & Gas Holdings plc is listed on the Equity Shares (transition) category of the Official List of the London Stock Exchange's main market for listed securities (symbol: PRD).
