8th September 2025

**Zenova Group PLC**  
("Zenova", the "Company" or the "Group")

**Zenova receives order for 9,483 Units of Zenova FX500 Fire extinguishers worth £100,000 from new distribution partner**

**Key Highlights:**

- **Order Details:** 9,483 FX 500 units, an aerosol fire extinguisher effective on all fire types including lithium and electrical, valued at £100,000, and delivered as part of a recurring supply agreement.
- **Distribution Partner:** Proteng s.r.o., a leading distributor of fire safety solutions in the Czech and Slovak Republics, will manage the distribution and sales of the FX500 within these territories.
- **Strategic Importance:** This order highlights the growing international demand for Zenova's PFAS-free fire safety solutions, expanding the Company's reach into Central Europe.
- This order is booked and recognized as immediate revenue in September 2025.

Zenova Group PLC ("Zenova" or the "Company"), a provider of innovative fire safety and heat management technology, is pleased to announce that it has secured an order for 9,483 units of its Zenova FX500 aerosol fire extinguishers, valued at approximately £100,000, through its new distribution partner in the Czech and Slovak Republics, Proteng s.r.o. having previously supplied Zenova FX 6L extinguishers to them as well as bulk fluid for their products.

**Commenting on this Filip Triner, Director of Proteng, said:**

*"We are excited to partner with Zenova and bring the Zenova FX500 to our customers in the Czech and Slovak Republics. The Zenova FX500 is a modern, high-performance solution that aligns perfectly with our customers' increasing demand for safe, eco-friendly fire protection."*

**Commenting on this Thomas Melchior CEO of Zenova Group PLC, said:**

*"Securing this significant order through Proteng demonstrates the international appeal of our Zenova FX500 extinguishers. The order's magnitude is an important milestone as it demonstrates the power of our distributor-led strategy, allowing us to accelerate our penetration of new markets like Central Europe, and leverage the increasingly rigorous regulation trend with our environmentally compliant fire safety solutions."*

#### **About Zenova Group PLC**

Zenova Group PLC specializes in the development and supply of advanced fire safety and temperature management technologies for industrial, commercial, and residential sectors. Its product portfolio includes the Zenova FP fire protection paint, Zenova IP thermal insulation paint, and the Zenova FX series of fire extinguishers, all engineered to meet the highest safety and efficiency standards in the industry. The product range is applicable to industrial, commercial, and residential markets.

#### ***Zenova FP, fire protection paint***

A water based, fire protection paint (also known as a 'thermofoaming' or 'intumescent' paint), which can be used on any surface and colour matched to any colour. When exposed to heat or flames, the paint expands and creates a solid foam-like crust which will not burn and insulates the surface it is painted on. This prevents surfaces from catching fire and stops fire spreading. It has been tested by global fire industry experts and complies with UK building regulations and the latest UK and European fire safety standards.

#### ***Zenova IP, thermal insulation paint***

A thermal insulation paint embeds the most modern insulating technology in a thermos-like ultra-thin layer. It saves energy by increasing the thermal insulation level in commercial and residential buildings. Solar heat can increase the temperature within a building by 75% to 90%. Zenova IP has been independently tested and validated to deflect, absorb and dissipate up to 75% of this heat, thereby reducing the inside temperature by up to 45%. Suitable for both exterior and interior, on any type of surface

#### ***Zenova IR, thermal insulation render***

Zenova IR is a ready mixed insulation render that can be applied to internal and external walls in commercial and residential buildings to provide immediate insulation benefits and can be colour matched to any colour.

#### ***Zenova FX, fire extinguishers***

A fire extinguisher like no other. It puts out class A, B, F and electrical fires fully tested against European EN3 as well as British standards. Available in 6 and 9 litre sizes.

#### ***Zenova FX500, aerosol fire extinguisher***

The Zenova FX500 is a high-performance handheld fire extinguisher that is tested by independent experts and adheres to the highest industry standards. Safe for use on any type of fire the Zenova FX500 reduces the risk of reignition. The Zenova FX 500 is quick, easy and safe to operated and has been tested to BS6165 standard.

#### ***Zenova CS, automatic ceiling sprinklers***

The Zenova CS provides ceiling-mounted fire protection for new builds and can be easily retrofitted into any existing environment to address all types of fire risks

#### ***Zenova WB, wildfire barrier***

A wildfire barrier fluid (applied via spray wands or aerial drops), which provides a virtual barrier where fire simply will not burn. Repeated tests on a variety of extremely dry wildfire fuels (grasses, hays, brush) demonstrates the incredible fire resistance Zenova WB provides, while remaining viable after application for 30+ days in dry conditions.
