Chair's Statement

The year 2025 so far has been a period of considerable change and reflection for Ocean Wilsons.

The sale of the Company's 56% interest in Wilson Sons S.A. was completed on 4 June which realised net cash proceeds of US 594m to the Company.

Subsequently, on 17 June, the Company announced a share buyback, via a Tender Offer, for 20% of the issued share capital. The Tender Offer completed on 23 July at 1543p per share, returning £109m to shareholders. Our largest shareholders chose not to participate, thereby enhancing the capital available to those other shareholders who did. This balanced some shareholders' desire for liquidity with the major shareholders' continued support for the Company's strategy of long-term investment.

On 28 July, the Company announced a proposed all-share merger with Hansa Investment Company Limited ("HICL"), structured on the basis of relative contributions of the fair value of net assets. On 12 September, of the Company's shareholders who were eligible to vote on the proposed merger, 80.5% by shares held and 76.6% by number of shareholders voted in favour, thereby approving the proposed merger by the required thresholds.

As part of the approval process set out in the Scheme Document, the Court Sanction hearing was held on 22 September. Following representations from counsel on behalf of Arnhold LLC, the Court approved a delay to the hearing until 30 October. The delay affords Arnhold additional time to present its objection to the sanctioning of the Scheme by the Court. The Board respects the Court's decision and notes the clear shareholder support for the merger and the shareholder approval obtained thereon. We continue to work towards the timely completion of the transaction and will provide further updates in due course.

This Interim Report marks the first interim report since the completion of the Wilson Sons sale on 4 June and covers the performance of the Company for the six months ended 30 June 2025. It reflects both the proceeds from that transaction and the performance of OWIL which delivered a 5.1% return in the first half of 2025. Equity markets in North America experienced significant swings during the period reflecting shifting geopolitical dynamics, trade policy

uncertainty, and changing expectations for interest rates. Against this backdrop, the portfolio's blend of listed equities and private equity holdings provided both resilience and participation in the recovery, underscoring the benefit of our diversified, long-term investment approach. The portfolio continues to be managed with an emphasis on capital growth, diversification, and disciplined risk management, consistent with the Company's philosophy of patient capital.

Investment Manager's Report

Market Backdrop

After moving sideways in the first three months of the year, global equity markets suffered a jolt at the start of April, falling sharply on Trump's announcement of significant "reciprocal" tariffs, before staging a recovery as these were delayed or otherwise renegotiated in a way that persuaded investors their impact would not be as great as initially feared. From mid-April, equity markets gained strongly, while dollar weakness has continued to be a notable theme.

Notably, equity market performance has broadened out, with European equities outperforming US equities, and emerging markets outperforming developed markets. Enthusiasm over developments in AI suffered a setback in the first few months of the year, although the sector strengthened in the second quarter as data around usage were very strong, driving AI infrastructure spend.

The investment portfolio returned 5.1% gross and 4.6% net over the first half of the year, ahead of the 3.7% return of the inflation-based performance benchmark (US CPI Urban Consumers NSA +3%).

Portfolio Commentary

Public Equity and Directional Hedge Funds

The investment portfolio's strongest performance was in the public equity and directional hedge funds. The best returns came from outside the US, with European, Japanese and Emerging Market holdings being particularly strong. In Europe, **Helikon Long Short Equity Fund** has performed exceptionally well, gaining 60.7%, benefiting from names in the materials, financials and utilities sectors. The manager has been very successful in identifying unique situations that have been accretive, such as a Polish utility company and a Greek bank. In Japan, where large cap growth stocks have performed well, **Arcus Japan**, **Alma Eikoh Japan Large Cap** and **Simplex Value Up** returned 10.2%, 13.0% and 14.5%, respectively. Within Emerging Markets, **BlackRock Frontiers** (+13.5%) and **Redwheel Next Generation Emerging Markets** (+14.5%) performed well.

Private Markets

While private equity has lagged public markets in the last couple of years, there have been some significant valuation gains this year, especially in the newer investments. Within Europe there was good performance from **Five Arrows** and **PAI**, while one of the older venture capital fund-of-funds, **Stepstone Global Partners IV**, made another distribution in March 2025 and now has a net multiple of 3x. One new commitment was made to **KKR North America XIV** in the first half of the year. This fund will continue the manager's successful strategy of acquiring controlling stakes in upper middle market and large cap US companies.

Defensive Positioning

The portfolio's defensive silo delivered positive returns in the first half of the year. With higher yields now than a few years ago, there was solid performance from many of the fixed income positions. **BioPharma Credit** and **Lazard Convertible Global** gained 7.3% and 8.8%, respectively, while the credit funds **Apollo Total Return** and **CQS Credit Multi Asset** both gained about 3%. Within the hedge fund space, **Global Event Partners** did well with a 7.0% return, and **Nephila Iron Catastrophe Fund**, a specialist strategy investing in catastrophe bonds, gained 4.4%, reflecting an extremely strong pricing environment. Systematic trend-following funds have had a difficult couple of years, and the market volatility early this year caused them to struggle further, although they have begun to pick up in recent months. However, **Schroder GAIA BlueTrend**, **Winton Trend** and **John Street Systematic** all detracted from performance over the first half of this year.

Looking Forward

Although we didn't anticipate the specifics of the tariff announcements, we were not surprised that his actions caused significant market volatility. However, we held our nerve by remaining invested, playing to our long-term strengths. Resisting capitulating at precisely the wrong point served us well, as markets recovered once the tariffs were delayed or renegotiated. There remains a question as to whether there will be further tariff announcements, and if the tariffs ultimately cause a downturn or, worse, a recession. Fortunately, the US economy is starting from a position of strength albeit time will tell if this is enough to ward off any negative market fallout.

Portfolios need to be managed very carefully in this backdrop and a tried and tested process is essential. No longer are we underpinned by the rising tide of falling inflation, low rates and abundant liquidity. Instead, we need to contend with a world where the geopolitical situation has become increasingly unstable. Nonetheless, we are blessed by the length of our investment horizon and not being required to mindlessly track indices. Diversification will be key in such a backdrop, something which we are well placed to apply at Hansa given our expertise across geographies, sectors and asset classes.

Financial Report

Following the Company's agreement in October 2024 to sell its full ownership interest in Wilson Sons, and in accordance with IFRS 5 "Non-current Assets Held for Sale and Discontinued Operations", the results of Wilson Sons were reported as discontinued operations and its assets and liabilities were classified as held for sale in the Company's 31 December 2024 Annual Report. As the transaction was completed on 4 June 2025, the gain on the sale has been included in the profit from discontinued operations as well as the results of Wilson Sons until that date. Note 4 to the interim consolidated financial statements provides details on the gain on sale, the profit and other comprehensive income and cash flows from discontinued operations until the date of the sale, and the assets and liabilities held for sale as at the date of the sale.

Profit

The increase in total profit for the period of US 273.2 million to US 311.6 million (2024: US 38.4 million) was generated by the gain on sale of discontinued operations of US 224.4 million, the increase in profit of discontinued operations of US 46.8 million and the increase in profit of continuing operations of US 2.0 million.

Profit from Continuing Operations (OWIL and Corporate)

The investment portfolio returns for the period increased by US 4.3 million to US 16.6 million (2024: US 12.3 million) and comprised earnings of US 7.5 million (2024: US 0.1 million), realised gains of US 5.2 million (2024: US 6.4 million), and unrealised gains of US 3.9 million (2024: US 5.8 million). Investment portfolio expenses increased US 0.2 million to US 1.9 million (2024: US 1.7 million), in line with the growth of the portfolio assets and performance fees of US 0.1 million being earned this period (2024: none).

Corporate expenses increased US 5.4 million to US 7.2 million (2024: US 1.8 million) which is entirely related to legal and professional fees associated with the various strategic review transactions and the sale of the Company's stake in Wilson Sons.

Finance income of US 2.3 million (2024: US 0.2 million) was generated on the increased cash and cash equivalent balance, while foreign exchange gains of US 0.6 million on monetary items represented an increase of US 1.2 million from the foreign exchange losses on monetary items of US 0.6 million in the comparative period.

This resulted in a profit for the period for continuing operations of US 10.4 million (2024: US 8.4 million) and US 2.0 million higher than the comparative period.

Profit from Discontinued Operations (Wilson Sons)

Profit from discontinued operations of US 301.2 million (2024: US 30.0 million) was US 271.2 million higher than the prior period, as it includes the gain on the sale of Wilson Sons of US 224.4 million (2024: none). The remaining increase of US 46.9 million was generated by the operations of Wilson Sons that returned a profit of US 76.9 million for the current period until the sale on 4 June 2025, compared to a profit of US 30.0 million for the six months ended 30 June 2024.

Exchange Rates

The Group reports in USD and prior to the sale of Wilson Sons had revenues, costs, assets and liabilities in both BRL and USD. Therefore, movements in the USD/BRL exchange rate influenced the Group's results either positively or negatively from year to year. From 1 January 2025 to 4 June 2025, the BRL appreciated 10% against the USD from R 6.30 to R 5.67, while in the six months to 30 June 2024 the BRL depreciated 14.9% against the USD from R 4.84 at 1 January 2024 to R 5.56 at the period end.

Profit for the period

The profit for the period attributable to the equity holders of the Company was US 277.6 million (2024: US 25.2 million), including US 10.4 million (2024: US 8.4 million) generated from continuing operations and US 267.2 million (2024: US 16.7 million) generated from discontinued operations, including the gain on sale of Wilson Sons. The profit

attributable to the non-controlling interests was US 34.0 million (2024: US 13.3 million), entirely generated from discontinued operations.

Cash Flows

Net cash inflow from continuing operations for the period of US 543.6 million was US 572.4 million higher than prior year (2024: outflow of US 28.8 million), driven by the net consideration of US 594.2 million received for the disposal of Wilson Sons during the current period.

Dividends of US 43.1 million were paid to shareholders of Ocean Wilsons (2024: US 30.1 million), with an additional US 20.9 million declared during the period and paid after the end of the period (2024: nil).

Other matters

Risk Management

The Board reported on the effectiveness of the systems of risk management and internal controls of the Company in the Annual Report for the year ended 31 December 2024. A risk register detailing the principal risks can be found in the Report of Directors of the 2024 Annual Report and Financial Statements which are available on the Company website at www.oceanwilsons.bm.

The Group managed its risks in a manner that reflected its structure of two distinct businesses, with specific processes for identifying, evaluating and managing key risks. Following the completion of the sale of Wilson Sons on 4 June 2024, the principal risks related to Wilson Sons are no longer applicable. The Board notes that otherwise, there have been no substantive changes to the risk assessment during the reporting period for continuing operations.

Related party transactions

Related party transactions during the period are set out in note 9 of the interim consolidated financial statements.

Going concern

The Group closely monitors and manages its liquidity risk. The Group has considerable financial resources including US 616.3 million in cash and cash equivalents and no borrowings. The investment portfolio has outstanding commitments totalling US 43.4 million in respect of investment subscriptions, including US 2.2 million expected to be called within one year, for which details are provided in note 5 to the interim consolidated financial statements. The timing of these commitments may be accelerated or delayed in comparison with those indicated in note 5, however highly liquid investments are held significantly in excess of those commitments.

The Group's business activities together with the factors likely to affect its future development and performance are set out in the Chair's statement together with the Investment Manager's report. Based on the Group's year to date results and cash forecasts, the Directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operation for the foreseeable future.

Responsibility statement

The Directors confirm that this interim financial information has been prepared in accordance with IAS 34 and that the interim management report includes a fair review of the information required by DTR 4.2.7 and DTR 4.2.8, namely:

- an indication of important events that have occurred during the first six months and their impact on the set of interim consolidated financial statements and a description of the principal risks and uncertainties for the remaining six months of the financial year; and
- material related party transactions in the first six months and any material changes in the related party transactions described in the last Annual Report.

4 Discontinued operations

In October 2024, the Board of the Company committed to sell its full ownership interest in Wilson Sons S.A. ("Wilson Sons") to SAS Shipping Agencies Services Sàrl. The transaction was completed on 4 June 2025 for a cash consideration of BRL 17.50 per share of Wilson Sons, totalling BRL 4.352 billion (US 767.6 million).

Accordingly, the assets and liabilities of Wilson Sons, which represents the entire maritime services segment, have been classified as part of a disposal group held for sale in the Company's 31 December 2024 annual report, and its results have been presented as discontinued operations for the current and comparative period.

The gain on sale of discontinued operations can be disaggregated as follows:

	4 June 2025
Transaction total cash consideration	767,563
Brazilian capital gains tax	(142,519)
Brokerage fees and currency hedging costs	(30,849)
Net cash consideration received	594,195
Recognition of prepaid tax asset	8,898
Derecognition of assets and liabilities sold	(503,408)
Derecognition of non-controlling interests	222,538
Reclassification of translation reserve	(97,873)
Gain on sale of discontinued operations	224,350

On 4 June 2025, the Company paid BRL 808.0 million (US 142.5 million) in Brazilian capital gains tax and of this amount, BRL 50.4 million (US 8.9 million) was deposited with the Brazilian courts and recognised as a prepaid tax asset. The Company is contesting this portion of the tax payment, asserting that it is not payable due to the impact of foreign exchange rate fluctuations used in calculating the acquisition cost base of its investment in Wilson Sons.

A formal claim has been filed with the Brazilian courts, and the Company is being represented in this matter by the Brazilian law firm Pinheiro Guimarães. The legal process is expected to take several years to be resolved, which is typical for cases of this nature in Brazil.

The profit and other comprehensive income from discontinued operations from the maritime services segment can be disaggregated as follows:

Total corporate expenses	(7,207)	(1,823)

7 Taxation

At the present time, no income, profit, capital or capital gains taxes are applicable to the Group's operations in Bermuda and accordingly, no expenses or provisions for such taxes have been recorded by the Group for its Bermuda operations. The Company has received an undertaking from the Bermuda government exempting it from all such taxes until 31 March 2035. During the year ended 31 December 2023, the Bermuda Corporate Income Tax Act of 2023 was enacted by the Bermuda government, which may supersede such exemptions. As the Company is currently not in scope for this new legislation, the exemptions provided by the Bermuda government undertaking still apply.

The operations in the maritime services segment were subject to Brazilian corporation tax and Brazilian social contribution tax calculated at respectively 25% and 9% (2024: 25% and 9%) of the taxable profit for the period.

The Company has no dilutive or potentially dilutive ordinary shares.

12 Financial instruments

The carrying and fair value of financial instruments are as follows:

	Unaudited 30 June 2025	Audited 31 December 2024	
	Carrying value	Fair value	Carrying value
			Fair value
Financial assets			
Cash and cash equivalents	616,258	616,258	38,847
Investment portfolio	340,953	340,953	322,636
Financial assets within disposal group held for sale			
Cash and cash equivalents	-	-	79,516
Trade and other receivables	-	-	70,174
Financial liabilities			
Trade and other payables	(1,447)	(1,447)	(633)
Financial liabilities within disposal group held for sale			
Trade and other payables	-	-	(69,869)
Bank loans	-	-	(276,708)
			(276,707)

The financial instruments recognised in the interim consolidated statement of financial position, by level of hierarchy, excluding financial instruments for which the carrying amount is a reasonable approximation of fair value, are as follows:

	Level 1	Level 2	Level 3	Total
30 June 2025 (unaudited)				
Investment portfolio	67,330	156,299	117,324	340,953
31 December 2024 (audited)				
Investment portfolio	53,879	151,521	117,236	322,636
Bank loans within disposal group held for sale	-	(276,708)	-	(276,708)

During the periods ended 30 June 2025 and 2024, no financial instruments were transferred between levels.

The movement in Level 3 financial instruments for the period is as follows:

	Unaudited at 30 June 2025	Audited at 31 December 2024
Opening balance	117,236	118,271
Purchases	6,200	12,611
Proceeds on disposal and repayments of capital	(1,265)	(1,305)
Realised losses	-	(6,424)
Unrealised losses	(4,847)	(5,917)
Closing balance	117,324	117,236

Investment in limited partnerships and private equity funds require a long-term commitment with no certainty of return. The Group's intention is to hold Level 3 investments to maturity. In the unlikely event that the Group is required to liquidate these investments, the proceeds received may be less than the carrying value due to their illiquid nature.

The sensitivity of the Level 3 investments to changes in fair value due to illiquidity and its impact on proceeds received, while all other variables are held constant, is as follows:

	Unaudited at 30 June 2025	Audited at 31 December 2024
Decrease of 5%	(5,866)	(5,862)
Decrease of 10%	(11,732)	(11,724)
Decrease of 20%	(23,465)	(23,447)

13 Subsequent events

On 17 June 2025, the Company announced it would launch a tender offer to return capital to its shareholders through the repurchase of up to 20% of its issued share capital (35,363,040 shares). The tender offer closed on 18 July 2025 and was fully subscribed, with 7,072,608 shares repurchased at a strike price of 1,543 pence per share, for a total consideration of £109.1 million (US 149.5 million). The tender offer became unconditional on 23 July 2025, after which the Company has 28,290,432 shares outstanding.
