

JURASSIC WORLD EVOLUTION 3 IS OUT NOW!

Players will experience game franchise-firsts including incredible juvenile dinosaurs, all-new breeding gameplay, powerful creative tools, and a globe-trotting campaign

Cambridge, UK - 21 October 2025 - Frontier Developments plc (AIM: FDEV, 'Frontier'), in collaboration with Universal Products & Experiences, today launched *Jurassic World Evolution 3*, the highly anticipated third installment in the critically acclaimed game franchise. Arriving on PC, PlayStation®5, and Xbox Series X|S, players can delve into a game franchise first that brings adorable juvenile dinosaurs and a comprehensive breeding system, take on an epic global campaign that spans multiple stunning locations around the world, and shape their parks like never before with powerful creative tools.

From today, new and aspiring park managers can take on the challenge of breeding and nurturing their very own dinosaurs, with over 85 awe-inspiring species available at launch. Exhibits bring more diversity to parks than ever, thanks to distinct male and female dimorphism and captivating juveniles, each with their own new social interactions and behaviours. The careful management of these majestic species will ensure herds can truly thrive, bringing more appeal for discerning guests - and therefore more money to invest and expand gameplay.

Across three compelling game modes, *Jurassic World Evolution 3* provides ample possibilities for a range of play styles. New and seasoned park managers alike can shape their park management legacy in a thrilling *Jurassic World Evolution* campaign, featuring the one and only Jeff Goldblum as Dr. Ian Malcolm. Across a map of diverse global locations, players must strike a delicate balance between competing human interests, a new adversary, and ensuring dinosaurs can live securely and peacefully in the modern world.

Challenge mode provides further opportunities to hone park-management skills, breed robust new generations of dinosaurs and more. Sandbox mode is the ideal canvas for creatives to effortlessly craft jaw-dropping parks in spectacular detail with intuitive new tools and a wide range of scenery themes, alongside a new Island Generator feature which allows players to spawn an infinite number of unique maps for even more creativity. In another series first, cross-platform sharing allows players to easily showcase their parks, dinosaur enclosures and scenery creations with a global community via the in-game Frontier Workshop.

With its endearing juveniles, awe-inspiring new attractions that allow guests to experience dinosaurs both up close and from new heights, an enchanting soundtrack built on and inspired by the iconic Universal Pictures and Amblin Entertainment film score, new ways to automate and master park management, stunning visuals, and much more, *Jurassic World Evolution 3* presents players and film franchise fans with the ultimate dinosaur park simulation.

Players looking to add even more excitement to their parks can do so with *Jurassic World Evolution 3: Deluxe Edition*, featuring four additional spectacular family units - Protoceratops, a diminutive herbivore characterised by its beak and neck frill; Guanlong, an intimidating early relative of the tyrannosaurs which boasts plumes of feathers; Thanatosdrakon, a giant pterosaur; and Concavenator, a formidable aerodynamic hunter - alongside a collection of scenery inspired by the Clark County Campaign level, plus three exclusive ATV vehicle skins.

Jurassic World Evolution 3 is available now on PC, PlayStation®5, and Xbox Series X|S for a suggested retail price of £49.99/ 59.99/€59.99 for the standard edition, and £64.99/ 74.99/€74.99 for the Deluxe Edition.
