04 November 2025

AIM: SYN

Cambay PSC Update

Synergia Energy Limited ("**Synergia**" or the "**Company**"), announces the following update regarding its Cambay PSC (WI: 50%), onshore India.

Workover Operations:

The work over of the Cambay **C-64** well has been completed and the sucker rod pump ("**SRP**") is operational. The well is still cleaning up with the brine "kill fluid" being removed. The clean up will last a few days before the production potential of the well can be assessed.

The Aakash XIV 50T work over rig has been mobilized to the **C-72** well location and is rigged up and commencing the work over operation. The program for this well is to clean up the well and install an SRP.

Following the C-72 work over, the Aakash XIV 50T rig will be mobilized to the **C-74** well location to conduct a similar work over program which will complete the three well work over campaign.

Drilling Operations:

The Kiri drilling rig has been mobilised to the new C-78 drilling pad (close to the C-54 well location) and the drilling of the new C-78 well has commenced as of 4 November 2025.
