

A STRONG LAUNCH FOR *JURASSIC WORLD EVOLUTION 3* AND A SEQUEL FOR *PLANET ZOO*

Frontier Developments plc (AIM: FDEV, 'Frontier' or the 'Company'), a leading developer and publisher of video games based in Cambridge, UK, is pleased to provide updates on two of its flagship franchises: *Jurassic World Evolution* and *Planet Zoo*.

***Jurassic World Evolution 3* hits it out of the park**

Excellent player engagement and critic reviews following its release on 21 October 2025 has delivered stronger-than-expected sales for *Jurassic World Evolution 3*, the third instalment in Frontier's biggest-selling game franchise, *Jurassic World Evolution*. At just over two weeks after release, base game sales have now exceeded 500,000 units, with higher revenue than was achieved by *Jurassic World Evolution 2* (Nov21) in an equivalent period.

As part of Frontier's post-launch strategy of nurturing its games for many years after release, several game updates have already been delivered, with further updates and new content already in development for the future, to delight existing players and engage new ones.

The strong launch of *Jurassic World Evolution 3* bodes well for Frontier's current financial year (1 June 2025 to 31 May 2026), ahead of the important festive sales period.

***Planet Zoo* Sequel Announced**

Frontier is excited to reveal that the CMS game scheduled for release in financial year 2027 (1 June 2026 - 31 May 2027) is a sequel to *Planet Zoo*, Frontier's biggest selling game to date. Released in 2019, *Planet Zoo* has sold over 5.5 million units worldwide and generated over £145 million in revenue as of 31 October 2025.

Since its original launch on PC, *Planet Zoo* has cultivated a vibrant global community of players whose creativity and passion have helped shape the game into a genre-defining experience. From intricately designed habitats to imaginative zoo layouts, the game has become a platform for millions to express their love for animals, conservation, and design.

Jonny Watts, CEO of Frontier, commented:

"We're thrilled with the player reception to *Jurassic World Evolution 3*, which has translated into an excellent sales performance. We look forward to sharing a full update on sales across our whole portfolio, including *Jurassic World Evolution 3*, in January following the festive period.

At the same time, we're delighted to be developing a sequel to *Planet Zoo*, a game that has been elevated by the incredible creativity and dedication of our community over the past six years."

Further details on the *Planet Zoo* sequel will be announced in due course.

About Frontier

Frontier is a leading independent developer and publisher of videogames founded in 1994 by David Braben, co-author of the iconic *Elite* game. Based in Cambridge, Frontier uses its proprietary COBRA game development technology to create innovative genre-leading games, primarily for personal computers and videogame consoles.

About the *Jurassic World* Franchise

From Universal Pictures and Amblin Entertainment, *Jurassic World* immerses audiences of all ages in a new era of wonder and thrills where dinosaurs and humankind must learn to coexist. In summer 2025, three years after the *Jurassic World* trilogy concluded with each film surpassing 1 billion at the global box office, the enduring *Jurassic* series evolved in an ingenious new direction with *Jurassic World Rebirth*, featuring a new generation of characters.

About Universal Products & Experiences

Universal Products & Experiences (UP&E) globally drives the expansion and elevation of NBCUniversal's iconic collection of brands, intellectual properties, characters, and stories based on the company's extensive portfolio of properties created by Universal Pictures, Illumination, DreamWorks Animation and NBCUniversal Television and Streaming. The division executes this through innovative physical and digital products, as well as engaging retail and product experiences across our expansive global theme park destinations (for both owned and third-party IP), location-based venues, e-commerce product platforms, and retailers around the world. Along with global brand strategy and creative, UP&E's lines of business include Consumer Products and Games, along with Theme Parks Products & Retail. UP&E is a division of Universal Destinations & Experiences, part of NBCUniversal, a subsidiary of Comcast Corporation. More information is available at universalproductsexperiences.com.
