About Oxford Metrics

Oxford Metrics (LSE:OMG) is a smart sensing and measurement technology Group that serves thousands of customers in more than 70 countries. Founded in 1984, we started our journey in healthcare, expanded into entertainment, winning an OSCAR® and an Emmy®, moved into engineering and more recently, smart manufacturing. We have a strong track record of creating value by incubating, growing and then augmenting through acquisition, unique technology businesses.

The Group trades through two divisions; in motion capture its market-leading company Vicon Motion Systems provides motion measurement analysis to thousands of customers worldwide in healthcare, entertainment and engineering markets. In Smart Manufacturing, [Industrial Vision Systems](#) is a specialist in machine vision software and technology for high precision, automated quality control systems trusted by blue-chip, smart manufacturing companies in medical devices, pharmaceuticals and performance engineering. [Sempore](#) is a measurement specialist solving manufacturing challenges across aerospace, automotive, medical device, and precision engineering markets.

The Group is headquartered in Oxford with offices in the United Kingdom, Ireland, United States and Germany.
