Cambay PSC Sale FAQs / Cambay PSC Update

Synergia Energy Limited ("**Synergia**" or the "**Company**"), announces the following update regarding its Cambay PSC (WI: 50%), onshore India.

Drilling Operations:

Following the logging of the C-78 well and the cementing of the 5 ½" casing, the Kiri drilling rig has been released.

The next operations are to perforate the casing at the pay zone level and production test the well. These operations will commence once the 30T workover rig has been installed at the wellsite. An update regarding the production testing will be provided as soon as available.

Workover Operations:

- Following the recent work over, the Cambay **C-64** well continues to produce at an average of 30 bopd.
- The C-72 well has yet to achieve a stable production level while the waxy crude issues are being resolved.
- The **C-74** well has established a stable production level of 15 bopd.
- The Aakash work over rig has been released.

Sale of Cambay PSC 50% working interest to Antelopus Selan Energy Limited ("Selan")
