RNS Number: 5356K Thruvision Group PLC 08 December 2025

Reach - non-regulatory announcement

8 December 2025

Thruvision Group plc

Imminent Contract Award

Thruvision Group plc (AIM: THRU), the leading provider of walk-through security technology ("Thruvision" or the "Company" and, together with its subsidiary undertakings, the "Group"), announces that it has received a Notice of Intent to Award for its' SpotCHECK people-screening solution, to support aviation worker screening under the TSA National Mandate at a large Pacific Northwest airport in the United States.

- The proposed aviation worker-screening solution includes two of Thruvision's latest-generation 8116 cameras.
- This award is from an existing customer, and the final contract award is subject to completion of standard procurement and approval processes that are expected to be completed by 13 December.
- This award demonstrates that Thruvision's solutions meet the requirements of the TSA mandate on aviation worker screening and the Company will be promoting its solution at the American Association of Airport Executives ("AAAE") Annual Aviation Security Summit this week.
- · This contract award is one of several expected before the end of calendar year 2025, as previously highlighted in the Interim Results (issued on 25 November 2025).

"We're proud to support this existing airport customer with our latest technology, building on nearly a decade of partnership, and delivering a safe, efficient, non-contact employee-screening capability," said Kevin Gramer, Sr. Vice President, Thruvision Americas. "The mobility of our solution enables security teams to adapt quickly to operational needs while maintaining consistent screening coverage."

About Thruvision

Thruvision is a leading international developer, manufacturer and supplier of walk-through security technology. Its technology is deployed in more than 30 countries around the world by government and commercial organisations in a wide range of security situations, where large numbers of people need to be screened quickly, safely and efficiently. Thruvision's patented technology is capable of detecting concealed metallic and non-metallic objects in real time using an advanced Al-based detection algorithm. The Group has offices and manufacturing capabilities in the UK and US.

Important information

This announcement may include statements that are, or may be deemed to be, "forward-looking statements" (including words such as "believe", "expect", "estimate", "intend", "anticipate" and words of similar meaning). By their

nature, forward-looking statements involve risk and uncertainty since they relate to future events and circumstances, and actual results may, and often do, differ materially from any forward-looking statements. Any forward-looking statements in this announcement reflect management's view with respect to future events as at the date of this announcement. Save as required by applicable law, the Company undertakes no obligation to publicly revise any forward-looking statements in this announcement, whether following any change in its expectations or to reflect events or circumstances after the date of this announcement.

About Reach announcements

This is a Reach announcement. Reach is an investor communication service aimed at assisting listed and unlisted (including AIM quoted) companies to distribute media only / non-regulatory news releases into the public domain. Information required to be notified under the AIM Rules for Companies, Market Abuse Regulation or other regulation would be disseminated as an RNS regulatory announcement and not on Reach.

This information is provided by Reach, the non-regulatory press release distribution service of RNS, part of the London Stock Exchange. Terms and conditions relating to the use and distribution of this information may apply. For further information, please contact msc.com.

RNS may use your IP address to confirm compliance with the terms and conditions, to analyse how you engage with the information contained in this communication, and to share such analysis on an anonymised basis with others as part of our commercial services. For further information about how RNS and the London Stock Exchange use the personal data you provide us, please see our Privacy Policy.
