*Quotation on OTCQX provides a significant advantage which will benefit all investors in a cost-efficient way. Trading in US dollars offers greater accessibility and flexibility for both new and existing shareholders. Furthermore, this will significantly elevate our visibility among a deep pool of US institutional and retail investors, providing a clear path for prospective shareholders to participate directly.*

*Our commitment to delivering long-term shareholder value continues to be a central focus, underpinned by strong financial discipline, transparent disclosure, and robust governance. These principles are essential to building enduring market trust and are the foundations of our public markets commitment.*

*The London Stock Exchange will continue to serve as the home of our listing and our primary trading venue, with OTCQX providing a complementary route for US investors."*
