## Feedback plc

### Trading Update

Feedback plc (AIM: FDBK, "Feedback" or the "Company"), the clinical infrastructure specialist, provides a trading update for the six months to 30 November 2025 (the "Period").

Revenue for the Period is expected to be c. £0.4m (H1 2025: £0.4m). Cash outlook remains in line with expectations and the Company continues to have sufficient cash runway through to mid-2027.

The backdrop is stabilising after last year's uncertainty and disruption across the NHS. During the Period there has been increased focus from policy makers and NHS management on the role of technology and digitisation in reducing NHS waiting times, combined with moves towards neighbourhood healthcare. This is supported by commitments to increase NHS technology spend.

Bleepa is well positioned given its proven capabilities and capacity to address analogue to digital and facilitate hospital to community, combined with its ability to help reduce waiting lists. As last year's disruption passes and given the increasing focus on technology and the flexibility of the Company's solutions, management expects that sales momentum could build around the next tax year, with the Company positioned to scale quickly and effectively.

**Dr Tom Oakley, CEO of Feedback plc, said:** *"The 10-year plan and direction of travel of the NHS are clearly aligned with the solutions we provide. Spending Review funding is due to be released to the NHS frontline for 2026/27, and we believe that this combined with an increasing recognition of the role of technology in healthcare will drive a new phase of commercialisation for Feedback."*

—Ends—

### About Feedback plc

Feedback plc liberates the data and knowledge from multiple healthcare IT systems and delivers better workflow to enable clinicians to communicate, collaborate and provide the best healthcare for their patients. We connect care settings with diagnostic and other relevant data to drive better, faster, safer decision that improve outcomes for patients.

By linking different clinical systems together into a seamless view of the patient, we can streamline patient pathways and deliver a digital health and diagnostics record across multiple care providers.

Bleepa® is our communication and collaboration platform that displays clinical results at a certified and regulated quality, which enables multi-disciplinary team working and diagnostic-enhanced advice and guidance. CareLocker® is our patient-facing platform that gives patients access and control over their diagnostic and other clinical data.

The Company has a number of growth opportunities domestically and internationally across a range of public and private healthcare markets including the NHS. Our highly scalable software-as-a-service (SaaS) based model is expected to provide increasing levels of revenue visibility as the Company grows its customer base.
