**About Alludium**

Alludium is developing an Agent Operating System that enables users to create, deploy and share custom agents through conversation, no coding required. Unlike traditional AI tools that operate in isolation, Alludium's platform allows multiple AI agents to collaborate with each other and with users, building institutional memory and automating workflows across organisations.

The platform addresses a growing market need for AI solutions that can scale beyond individual use cases to enable true human-AI team collaboration. Alludium's technology allows agents to communicate, coordinate tasks, and share intelligence to solve complex problems together.

The person who arranged for the release of this announcement on behalf of the Company was John Farthing, Interim Chief Executive Officer of the Company and the Directors of the Company are responsible for the release of this announcement.
