About Tirupati Graphite Plc

Tirupati Graphite is a specialist graphite producer and a supplier of the critical mineral for a decarbonised economy and the energy transition, with leading low development capital and operating costs. The Company places a special emphasis on green applications including renewable energy, e-mobility, energy storage and thermal management, and is committed to ensuring its operations are sustainable.

The Group's operations include primary mining and processing in Madagascar where the Group operates two key projects, Sahamamy and Vatomina, with a potential combined final nameplate production capacity of 36,000tpa, subject to permits and ongoing work at Vatomina, and redevelopment of Sahamamy, currently on care and maintenance. The Madagascar operations produce high-quality flake graphite concentrate with up to 97% purity and selling to customers globally.

The Group also holds two world class, natural graphite projects in Mozambique including the Montepuez graphite project, which is permitted for 100,000tpa production and where substantial construction work has already been undertaken, although the projects remain under force majeure at the present time.
