Contract Award for Logistics Port Development

Tekmar Group plc (AIM: TGP), a leading provider of asset protection technology and offshore energy services, is pleased to announce that it has secured a US 1.5 million contract with an existing Engineering, Procurement and Construction (EPC) customer to supply engineered scour protection solutions for a major port infrastructure development in the Middle East.

The contract scope includes the engineering design and supply of bespoke scour protection solutions, providing long-term stability and protection for port infrastructure in challenging marine conditions. Delivery is scheduled for the third quarter of 2026.

Richard Turner, CEO of Tekmar, commented:

"We are very pleased to be able to strengthen our relationship with this key customer. This award reflects the significant value Tekmar's technology brings to the growing ports and harbours sector and highlights our continued success in developing a more diversified global footprint."
